

TRIBUNE ALMANAC

For 1890.

ECLIPSES.

In the year 1890 there will be three Eclipses, two of the Sun and one of the Moon, and a Lunar Appulse.

I.—A Lunar Appulse, June 3. The nearest approach to the Earth's shadow occurs at 1 h. 45 min. a. m., New-York standard time; but owing to the uncertainty as to the effect of atmospherid conditions, it is doubtful whether the Moon will enter the shadow of the Earth or not.

II.—An Annular Eclipse of the Sun, June 17, invisible here, the path of the annular phase passing over Northern Africa and Southeastern Asia.

III.—A Partial Eclipse of the Moon, November 26, invisible here.

IV.—A Central Eclipse of the Sun, invisible in this country. The peculiarity of this Eclipse is that it will be annular at the beginning and end, and total in the central part of its path. The line of greatest obscuration starts north of the Mauritius, and passes through the Indian and Southern Oceans to the south of Australia and New-Zealand.

ABSTRACT OF PUBLIC LAWS

PASSED AT THE SECOND SESSION OF THE FIFTIETH CONGRESS.

[December 3, 1888—March 3, 1889.]

AGRICULTURE, SECRETARY OF.

Chapter 122.—Makes the Department of Agriculture an Executive Department, under the supervision and control of a Secretary of Agriculture, appointed by the President, by and with the consent of the Senate.—(Approved February 9, 1889.)

ALASKA, SALMON FISHERIES OF.

Chap. 415.—Enacts that the erection of dams, barricades or other obstructions in any of the rivers of Alaska, with the purpose or result of preventing or impeding the ascent of salmon or other anadromous species to their spawning grounds, is declared to be unlawful, and the Secretary of the Treasury is directed to establish such regulations and surveillance as may be necessary to insure that this prohibition is strictly enforced and otherwise to protect the salmon fisheries of Alaska; and every person who shall be found guilty of a violation of the provisions of this section shall be fined not less than \$250 for each day of the continuance of such obstruction.

That section 1,956 of the Revised Statutes is hereby declared to include and apply to all the dominion of the United States in the waters of Behning Sea; and it shall be the duty of the President, at a timely season in each year, to issue his proclamation and cause the same to be published for one month in at least one newspaper, if any such there be published, at each United States port of entry on the Pacific Coast, warning all persons against entering said waters for the purpose of violating the provisions of said section; and he shall also cause one or more vessels of the United States diligently to cruise said waters and arrest all persons, and seize all vessels found to be, or to have been, engaged in any violation of the laws of the United States therein.—(Approved March 2, 1889.)

BRIDGES

were authorized across the Tennessee River below Aurora, Ky., and across the Cumberland River at any point in Cumberland, Monroe or Trigg County, Ky., or Clay County, Tenn.; across the Mississippi at La Crosse; across the Kentucky and its tributaries, by the Richmond and Beattyville Railroad Company; across the Missouri, between Leavenworth, Kan., and Platte County, Mo.; over the Missouri at or near Kansas City, Kan., and not over ten miles above the Hannibal and St. Joseph Railway bridge at Kansas City, Mo.; across the Bayou Bartholomew, at or near Ward's Ferry, La.; across the Tensas, at or near Daniel's Ferry, La.; across Young's Bay, Clatsop County, Ore.; across the Kentucky and its tributaries, by the Kentucky Union Railway Company; across the Coosa, at Gadsden, Ala.; across the Mississippi near Alma, Wis.; across the

Illinois, between Greene and Calhoun Counties, Ill.; across the Tallapoosa, near Judkin's Ferry, Ala.; across the Tombigbee, Warica and Tennessee rivers and across Grand Pass to Dauphin's Island, in the Gulf of Mexico; across the Red, in Louisiana, in Natchitoches Parish; across the St. John's near Palatka, Fla.; across the Kentucky and its forks, by the Kentucky Midland Railway Company; across the Missouri, by the Leavenworth and Platte County Bridge Company, between Leavenworth, Kan., and Platte County, Mo., at least one-fourth of a mile from any other bridge; across the Osage in Benton County, Mo.; across the Green and Barren, by the Henderson State Line Railroad Company.

BUILDINGS (PUBLIC)

were authorized at Kalamazoo, Mich.; Milwaukee, Wis.; Omaha, Neb.; Sedalia, Mo.; Fort Worth, Tex.; New-Berne, N. C. Additional appropriations were authorized for the buildings at San Francisco, Detroit and Winona.

CENSUS.

Chap. 319.—Provides for taking the eleventh and subsequent censuses. A superintendent is provided, salary \$6,000 a year, with chief, disbursing and sundry other clerks. Not more than 175 supervisors of census shall be appointed on or before March 1, 1890. Each supervisor shall propose to the superintendent the proper subdivisions of his district and designate suitable enumerators, one for each subdivision, a resident therein, who shall be selected solely with reference to fitness, and without reference to his political party affiliations, preference to be given in all cases to properly qualified persons honorably discharged from the military or naval service of the United States, resident in their respective districts. Said supervisor shall supervise the taking of the census, scrutinize the returns of the enumerators, and attend to sundry duties specifically described. Each supervisor shall, on completion of his duties, receive \$125, and \$1 or \$1.40 for each thousand or majority fraction of a thousand of the population enumerated, according to the degree of density of population—no supervisor, however, to receive less than \$500 for services and expenses, except that an allowance for clerk-hire may be made in the discretion of the superintendent of the census.

Each enumerator shall be paid an allowance of two cents for each living inhabitant, two cents for each death reported, fifteen cents for each farm, and twenty cents for each establishment of productive industry enumerated and returned, and five cents for each surviving soldier, sailor or marine, or widow of such soldier, sailor or marine returned. Where the superintendent regards these allowances insufficient, he is authorized to fix other rates according to the difficulty of enumeration, having refer-

ence to the nature of the region, the density or sparseness of settlement, or other considerations pertinent thereto, under certain limitation prescribed. The subdivision of each enumerator shall not exceed 4,000 inhabitants.

The schedules of inquiries shall be the same as at the preceding census, with such changes of the subject-matter, enumerations and modifications as may be approved by the Secretary of the Interior, but the names, organizations and length of service of those who had served in the Army, Navy or Marine Corps of the United States in the war of the Rebellion, and who are survivors at the time of said inquiry, and the widows of soldiers, sailors or marines shall be taken on a special schedule, and the population schedule shall include an inquiry as to the number of negroes, mulattoes, quadroons and octoroons.

Experts and special agents may be employed to ascertain the statistics of the manufacturing, railroad, fishing, mining, cattle and other industries of the country, and of telegraph, express, transportation and insurance companies, at an expense not exceeding \$6 per day for each expert and necessary travelling expenses.

The enumerations shall begin June 1, 1890, and be taken as of that date. The returns of the enumerators shall be forwarded to the supervisors on or before July 1, 1890. In cities of over 10,000 under the last census, the enumeration shall be taken within two weeks from June 1.—(Approved March 1, 1889.)

COUNTERFEIT MONEY, DEALERS IN.

Chap. 303.—Amends Section 5,480 of Revised Statutes so as to read as follows: "If any person having devised or intending to devise any scheme or artifice to defraud, or to sell, dispose of, loan, exchange, alter, give away, or distribute, supply, or furnish, or procure for unlawful use any counterfeit or spurious coin, bank notes, paper money, or any obligation or security of the United States or of any State, Territory, municipality, company, corporation, or person, or anything represented to be or intimated or held out to be such counterfeit or spurious articles, or any scheme or artifice to obtain money by or through correspondence, by what is commonly called the 'sawdust swindle,' or 'counterfeit money fraud,' or by dealing or pretending to deal in what is commonly called 'green articles' 'green coin,' 'bills,' 'paper goods,' 'spurious Treasury notes,' 'United States goods,' 'green cigars,' or any other names or terms intended to be understood as relating to such counterfeit or spurious articles, to be effected by either opening or intending to open correspondence or communication with any person, whether resident within or outside the United States, by means of the post-office establishment of the United States, or by inciting such other person or any person to open communication with the person so devising or intending, shall, in and for executing such scheme or artifice or attempting so to do, place or cause to be placed, any letter, packet, writing, circular, pamphlet, or advertisement in any postoffice, branch postoffice, or street or hotel letter-box of the United States,

to be sent or delivered by the said post-office establishment, or shall take or receive any such therefrom, such person so misusing the postoffice establishment shall, upon conviction, be punishable by a fine of not more than \$500 and by imprisonment for not more than eighteen months, or by both such punishments, at the discretion of the court. The indictment, information, or complaint may severally charge offences to the number of three when committed within the same six calendar months; but the court thereupon shall give a single sentence, and shall proportion the punishment especially to the degree in which the abuse of the postoffice establishment enters as an instrument into such fraudulent scheme and device." Other sections declare non-mailable all matter the deposit of which in the mails is by this act made punishable, and empower the Postmaster-General to require identification of persons addressed before delivering the matter to them, etc.—(Approved March 2, 1889.)

CUSTOMS LEGISLATION.

Columbus, Ohio, and Sault Ste. Marie, Mich., were granted the privileges of inland transportation in bond, and a surveyor at a salary of \$900 a year and usual fees authorized at the former.

INDIANS.

Chap. 24.—Is an act for the relief and civilization of the Chippewa Indians in Minnesota.—(Approved January 14, 1889.)

Chap. 203.—Is an act to ratify the agreement of the Shoshones, Bannocks and Sheepeaters of the Fort Hall and Lemhi Reservation, Idaho.—(Approved February 23, 1889.)

Chap. 317.—Is an act to ratify an agreement with the Muscogee (or Creek) Nation of Indians, in the Indian Territory.—(Approved March 1, 1889.)

Chap. 321.—Is an act to provide for settlement of titles to lands claimed by, or under the Black Bob band of Shawnee Indians, in Kansas, or a deed thereto.—(Approved March 1, 1889.)

Chap. 172.—Authorizes the President from year to year, in his discretion, under such regulations as he may prescribe, to authorize the Indians residing on reservations or allotments, the fee to which remains in the United States, to fell, cut, remove, sell or otherwise dispose of the dead timber, standing or fallen, on such reservation or allotment, for the sole benefit of such Indian or Indians. But whenever there is reasonable cause to believe that such timber has been killed, burned, girdled, or otherwise injured for the purpose of securing its sale under this act, then in that case such authority shall not be granted.—(Approved February 16, 1889.)

INTERSTATE COMMERCE.

Chap. 382.—Provides amendments to Sections 6, 10, 12, 14, 16, 17, 18, 21 and 22 of the original act of February 4, 1887, and contains this new section:

That the circuit and district courts of the United States shall have jurisdiction upon the relation of any person or persons, firm, or corporation, alleging such violation by a common carrier, of any of the provisions of the act to which this is a supplement and all acts amendatory

thereof, as prevents the relator from having interstate traffic moved by said common carrier at the same rates as are charged, or upon terms or conditions as favorable as those given by said common carrier, for like traffic under similar conditions to any other shipper, to issue a writ or writs of mandamus against said common carrier, commanding such common carrier to move and transport the traffic, or to furnish cars or other facilities for transportation for the party applying for the writ: Provided, That if any question of fact as to the proper compensation to the common carrier for the service to be enforced by the writ is raised by the pleadings, the writ of peremptory mandamus may issue, notwithstanding such question of fact is undetermined, upon such terms as to security, payment of money into the court, or otherwise, as the court may think proper, pending the determination of the question of fact: Provided, That the remedy hereby given by writ of mandamus shall be cumulative, and shall not be held to exclude or interfere with other remedies provided by this act or the act to which it is a supplement.

To Section 6 additions are made requiring any common carrier subject to the act receiving freight in the United States to be carried through a foreign country to any place in the United States, to print and keep open for public inspection, at every depot or office where such freight is received for shipment, schedules showing the through rates charged. Freight shipped in violation of this provision shall be subject to customs duties, as if a foreign production. Reductions in published rates by any common carrier shall be made only after three days' previous public notice, to be given in the same manner as a notice of advance of rates. These new provisions are added:

"Every common carrier subject to the provisions of this act shall file with the Commission copies of its schedules of rates, fares, and charges which have been established and published in compliance with the requirements of this section, and shall promptly notify said Commission of all changes made in the same. Every such common carrier shall also file with said Commission copies of all contracts, agreements, or arrangements with other common carriers in relation to any traffic affected by the provisions of this act to which it may be a party. And in cases where passengers and freight pass over continuous lines or routes operated by more than one common carrier, and the several common carriers operating such lines or routes establish joint tariffs of rates or fares or charges for such continuous lines or routes, copies of such joint tariffs shall also, in like manner, be filed with said Commission. Such joint rates, fares, and charges on such continuous lines so filed as aforesaid shall be made public by such common carriers when directed by said Commission, in so far as may, in the judgment of the Commission, be deemed practicable; and said Commission shall from time to time prescribe the measure of publicity which shall be given to such rates, fares and charges, or to such part of them as it may deem it practicable for such common

carrier to publish, and the places in which they shall be published.

"No advance shall be made in joint rates, fares and charges, shown upon joint tariffs, except after ten days' notice to the Commission, which shall plainly state the changes proposed to be made in the schedule then in force, and the time when the increased rates, fares or charges will go into effect. No reduction shall be made in joint rates, fares and charges, except after three days' notice, above provided in the case of an advance to be given to the Commission as is of joint rates. The Commission may make public such proposed advances, or such reductions, in such manner as may, in its judgment, be deemed practicable, and may prescribe from time to time the measure of publicity which common carriers shall give to advances or reductions in joint tariffs.

"It shall be unlawful for any common carrier, party to any joint tariff, to charge, demand, collect or receive from any person or persons a greater or less compensation for the transportation of persons or property, or for any services in connection therewith, between any points as to which a joint rate, fare or charge is named thereon than is specified in the schedule filed with the Commission in force at the time.

"The Commission may determine and prescribe the form in which the schedules required by this section to be kept open to public inspection shall be prepared and arranged, and may change the form from time to time as shall be found expedient."

Sundry other minor changes are made.
—(Approved March 2, 1889.

NAVAL.

Chap. 396.—Enacts that after March 4, 1889, the minimum age of admission of cadets to the academy shall be fifteen years and the maximum age twenty years.
—(Approved March 2, 1889.

Chap. 331.—Authorizes the Secretary of the Navy to furnish as a bounty to the enlistment of boys as apprentices in the Navy, an outfit of clothing not to exceed in value \$45.—(Approved March 1, 1889.

Chap. 119.—Provides that any enlisted man or appointed petty officer of the Navy may deposit his savings, in sums not less than five dollars, with the paymaster upon whose books his account is borne; and he shall be furnished with a deposit-book, in which the said paymaster shall note, over his signature, the amount, date and place of such deposit. The money so deposited shall be accounted for in the same manner as other public funds, shall not be permitted to be paid until final payment on discharge, or to the heirs or representatives of a deceased sailor, and shall be exempt from liability for such sailor's debts: Provided, That the Government shall be liable for the amount deposited to the person so depositing the same.

That for any sums not less than five dollars so deposited for the period of six months or longer, the sailor, on his final discharge, shall be paid interest at the rate of 4 per centum per annum.—(Approved February 9, 1889.

NAVAL ESTABLISHMENT.

Chap. 371.—Appropriates \$1,000,000 for the construction of one armored steel cruising monitor of not less than 3,000 tons displacement, of the type recommended by the Naval Board of 1889, to be approved by the Secretary of the Navy; \$150,000 for the construction by the Pneumatic Dynamite Gun Company of one additional cruiser of the Vesuvius type, of not less dimensions than that vessel; \$700,000 for the construction by contract of two steel cruisers or gunboats of the most approved type of 800 to 1,200 tons displacement. One ram for harbor defence of the general type of 1871 of highest practicable speed is also authorized, all said vessels to be of domestic manufacture.—(Approved March 2, 1889.)

PENSIONS.

Chap. 390.—Enacts that the charge of desertion now standing on the rolls and records in the office of the Adjutant-General against any soldier who served in the late war in the volunteer service shall be removed in all cases where it shall be made to appear to the satisfaction of the Secretary of War, from such rolls and records, or from other satisfactory testimony, that such soldier served faithfully until the expiration of his term of enlistment, or until the 1st day of May, 1865, having previously served six months or more, and, by reason of his absence from his command at the time the same was mustered out, failed to be mustered out and to receive an honorable discharge, or that such soldier absented himself from his command, or from hospital while suffering from wounds, injuries, or disease received or contracted in the line of duty and was prevented from completing his term of enlistment by reason of such wounds, injuries, or disease.

Sec. 2. That the Secretary of War is hereby authorized to remove the charge of desertion from the record of any regular or volunteer soldier in the late war upon proper application therefor, and satisfactory proof in the following cases:

First. That such soldier, after such charge of desertion was made, and within a reasonable time thereafter, voluntarily returned to his command and served faithfully to the end of his term of service, or until discharged.

Second. That such soldier absented himself from his command or from hospital while suffering from wounds, injuries, or disease, received or contracted in the line of duty, and upon recovery voluntarily returned to his command and served faithfully thereafter, or died from such wounds, injuries, or disease while so absent, and before the date of muster out of his command, or expiration of his term of service, or was prevented from so returning by reason of such wounds, injuries, or diseases before such muster out, or expiration of service.

Third. That such soldier was a minor, and was enlisted without the consent of his parent or guardian, and was released or discharged from such service by the order or decree of any court of competent jurisdiction on habeas corpus or other proper judicial proceedings; and in any

such case, no pay, allowance, bounty, or pension shall be allowed or granted.

Sec. 3. That the charge of desert on now standing on the rolls and records in the office of the Adjutant-General against any regular or volunteer soldier who served in the late War of the Rebellion by reason of his having enlisted in any regiment, troop, or company, or in the United States Navy or Marine Corps, without having first received a discharge from the regiment, troop or company in which he had previously served, shall be removed in all cases wherein it shall be made to appear to the satisfaction of the Secretary of War, from such rolls and records, or from other satisfactory testimony, that such re-enlistment was not made for the purpose of securing bounty or other gratuity that he would not have been entitled to had he remained under his original term of enlistment; that the absence from the service did not exceed four months, and that such soldier served faithfully under his re-enlistment.

Sec. 4. That whenever it shall appear from the official records in the office of the Adjutant-General that any regular or volunteer soldier of the late war was formally restored to duty from desertion by the commander competent to order his trial for the offence, or, having deserted and being charged with desertion, was, on return to the service, suffered, without such formal restoration, to resume his place in the ranks of his command, serving faithfully thereafter until the expiration of his term, such soldier shall not be deemed to rest under any disability, because of such desertion, in the prosecution of any claim for pension on account of disease contracted, or wounds or injuries received in the line of his duty as a soldier.

Sec. 5. That when the charge of desertion shall be removed under the provisions of this act from the record of any soldier, such soldier, or, in case of his death, the heirs or legal representatives of such soldier, shall receive the pay and bounty due to such soldier: Provided, however, That this act shall not be so construed as to give to any such soldier, or, in case of his death, to the heirs or legal representatives of any such soldier, any pay, bounty or allowance for any time during which such soldier was absent from his command without proper authority, nor shall it be so construed as to give any pay, bounty, or allowance to any soldier, his heirs or legal representatives, who served in the army for a period less than six months.

Sec. 6. That the Secretary of War be and he hereby is authorized and directed to amend the military record of any soldier who enlisted for the war with Mexico, upon proper application, where the rolls and records of the Adjutant-General's office show the charge of desertion against him, when such rolls and records show the facts set out in the following cases:

First. That said soldier served faithfully the full term of his enlistment, or having served faithfully for six months or more, and until the 4th day of July,

1848, left his command without having received a discharge.

Second. That such soldier, after said charge of desertion, was entered on the rolls, voluntarily returned to his command within a reasonable time and served faithfully until discharged,

Sec. 7. That the provisions of this act shall not be so construed as to relieve any soldier from the charge of desertion who left his command from disaffection or disloyalty to the Government, or to evade the dangers and hardships of the service, or whilst in the presence of the enemy (not being sick or wounded), or while in arrest or under charges for breach of military duty, or in case of a soldier of the Mexican War, who did not actually reach the seat of war.

Sec. 8. That when such charge of desertion is removed under the provisions of this act, the soldier shall be restored to a status of honorable service, his military record shall be corrected as the facts may require, and an honorable discharge shall be issued in those cases where the soldier has received none; and he shall be restored to all his rights as to pension, pay or allowances as if the charge of desertion had never been made; and in case of the death of said soldier, his widow or other legal heir shall be entitled to the same rights as in case of other deceased honorably discharged soldiers: Provided, That this act shall not be construed to give to any soldier, or his legal representatives or heir, any pay or allowance for any period of time he was absent without leave, and not in the performance of military duty.

Sec. 9. That all applications for relief under this act shall be made to and filed with the Secretary of War within the period of three years from and after July 1, 1889, and all applications not so made and filed within said term of three years shall be forever barred, and shall not be received or considered.—(Approved March 2, 1889.)

Chap. 122.—Provides that from and after the passage of this act all persons who, in the military or naval service of the United States and in the line of duty, have lost both hands, shall be entitled to a pension of \$100 a month.—(Approved February 12, 1889.)

POSTOFFICE.

Chap. 50.—Provides that the omission by the sender to place the lawful postage upon a letter bearing special delivery stamp and otherwise entitled to immediate delivery, shall not hinder or delay the transmission and delivery thereof as provided herein, but such lawful postage shall be collected upon its delivery, in the manner now provided by law for the collection of deficient postage resulting from the overweight of letters.—(Approved January 16, 1889.)

Chap. 100.—Authorizes the Postmaster-General to conclude arrangements with the post departments of foreign governments with which postal connections have been or may be concluded, to increase the maximum amount of international money orders from fifty to one hundred dollars.—Approved January 30, 1889.

PUBLIC LANDS.

Chap. 381.—Enacts that from and after the passage of this act no public lands of the United States, except those in the State of Missouri, shall be subject to private entry.

That any person who has not heretofore perfected title to a tract of land of which he has made entry under the homestead law, may make a homestead entry of not exceeding one-quarter section of public land subject to such entry, such previous filing or entry to the contrary notwithstanding; but this right shall not apply to persons who perfect title to lands under the pre-emption or homestead laws already initiated: Provided, That all pre-emption settlers upon the public lands whose claims have been initiated prior to the passage of this act may change such entries to homestead entries and proceed to perfect their titles to their respective claims under the homestead law notwithstanding they may have heretofore had the benefit of such law, but such settlers who perfect title to such claims under the homestead law shall not thereafter be entitled to enter other lands under the pre-emption or homestead laws of the United States.

There are other minor provisions of little general interest.—(Approved March 2, 1889.)

Chap. 377.—Makes it the duty of the Attorney-General of the United States with six months to cause suits to be brought in the United States Circuit Court for Oregon against parties having an interest in the lands granted to Oregon by the acts of July 2, 1864, July 5, 1866, and February 25, 1867, granting lands, and in the construction of certain military roads, to determine the questions of the seasonable and proper completion of said roads in accordance with the terms of the granting acts, either in whole or in part, the legal effect of the several certificates of the Governors of the State of Oregon of the completion of said roads, and the right of resumption of such granted lands by the United States, and to obtain judgments, which the court is hereby authorized to render, declaring forfeited to the United States all of such lands as are coterminous with the part or parts of either of said wagon-roads which were not constructed in accordance with requirements of the granting acts, and setting aside patents which have issued for any such lands, saving and preserving the rights of all bona fide purchasers of either of said grants or of any portion of said grants for a valuable consideration, if any such there be.—(Approved March 2, 1889.)

Chap. 414.—Forfeits to the United States all lands granted in the act of June 3, 1856, to Michigan, which are opposite to and coterminous with the completed portion of any railroad, to aid in the construction of which said lands were granted or applied, and all such lands are hereby declared to be a part of the public domain: Provided, That this act shall not be construed as forfeiting the right of way or depot grounds of any railroad company heretofore granted.

That all persons who may have settled upon and are now in possession of any of

the lands hereby forfeited, and who may desire to enter the same under the homestead law, shall be allowed, when making final proof, for the time they have already resided upon and cultivated the same.— (Approved March 2, 1889.)

RIGHTS OF WAY GRANTED TO RAILROAD COMPANIES.

The Moorhead, Leech Lake and Northern, through the White Earth Indian Reservation in Minnesota, from Moorhead to Duluth. The Pensicola and Memphis, through the Naval Reservation, near Pensacola, Florida. The Big Horn Southern, through a part of the Crow Indian Reservation in Montana, beginning in Yellowstone County, to or near the mouth of Owl Creek. The Yankton and Missouri Valley, through the Yankton Indian Reservation, in Dakota. The Big Horn Southern, across the Fort Custer Military Reservation, Montana. The St. Paul, Minneapolis and Manitoba, through the White Earth Indian Reservation, Minnesota. The Fort Smith, Paris and Dardanelle, from Fort Smith through the Indian Territory to or near Baxter Springs, Kansas. The Forest City and Watertown, through the Sioux Indian Reservation, Dakota. The Omaha, Dodge City and Southern, through the Fort Hays Military Reservation. The Duluth and Winnipeg, through the Leech Lake and White Earth Indian Reservation, Minnesota.

TERRITORIES BECOME STATES.

Chap. 180.—Provides the method by which that part of the area of the United States now constituting the Territories of Dakota, Montana and Washington may become the States of North Dakota, South Dakota, Montana and Washington. Dakota shall be divided on the line of the seventh standard parallel produced due west to the western boundary of the Territory—the territory north of that line to be North Dakota, the territory south of it South Dakota.

The Governor, Chief-Justice and Secretary of each territory are to apportion the territory into proper districts for the election of delegates to conventions—each district to have three delegates and each elector to vote for not more than two. The elections for delegates—seventy-five in number—to be held the second Monday in May, 1889. In South Dakota, at said election, they shall vote "for" and "against" the Sioux Falls Constitution. If a majority vote "for" it, the convention shall re-submit to the people of South Dakota the constitution passed at Sioux Falls and adopted November 3, 1885, with the articles then separately submitted, and with such changes only as relate to the name and boundary of the proposed State, to the reapportionment of the judicial and legislative districts, and such amendments as may be necessary in order to comply with the provisions of this act. If a majority of the votes cast on ratification or rejection of the Constitution shall be for the constitution irrespective of the articles separately submitted, the State of South Dakota shall be admitted as a State in the Union under said constitution, as here-

inafter provided. If at the election for delegates to a convention, the majority should be "against" the Sioux Falls constitution, the convention, which shall meet July 4, 1889, shall proceed to form a constitution the same as if that question had not been submitted.

The election on the adoption of all the constitutions shall be held on the first Tuesday in October. The returns shall be made to the Secretary of each Territory, who, with the Governor and Chief Justice, or any two, shall canvass the same, and, if a majority of the legal votes cast be for the constitution, the Governor shall certify the result to the President of the United States. And if the constitutions and governments of the said proposed States are republican in form, and if all the provisions of this act have been complied with in the formation thereof, it shall be the duty of the President to issue his proclamation announcing the result of the election in each, and thereupon the proposed States which have adopted constitutions and formed State governments, as herein provided, shall be deemed admitted by Congress into the Union under and by virtue of this act, on an equal footing with the original States from and after the date of said proclamation.

South Dakota is declared entitled to two Representatives, each of the others to one, and Representatives to the List Congress may be elected on the day of the election for the ratification of the constitution. The constitutional conventions may, by ordinance, provide for the election of officers for full State governments, including members of the Legislatures and Representatives in the List Congress; but said State governments shall remain in abeyance until the States shall be admitted into the Union, respectively, as provided in this act. In case the constitution of any of said proposed States shall be ratified by the people, but not otherwise, the Legislature thereof may assemble, organize, and elect two Senators of the United States; and the Governor and Secretary of State of such proposed State shall certify the election of the Senators and Representatives in the manner required by law; and when such State is admitted into the Union, the Senators and Representatives shall be entitled to be admitted to seats in Congress, and to all the rights and privileges of Senators and Representatives of other States in the Congress of the United States; and the officers of the State governments formed in pursuance of said constitutions, as provided by the constitutional conventions, shall proceed to exercise all the functions of such State officers; and all laws in force made by said Territories, at the time of their admission into the Union, shall be in force in said States, except as modified or changed by this act or by the constitutions of the States, respectively.

The act also provides that the constitutions shall be republican in form, and make no distinction in civil or political rights on account of race or color, except as to Indians not taxed, and not be repugnant to the Constitution of the United States and the principles of the Declaration of Independence. And said conven-

tions shall provide, by ordinances irrevocable without the consent of the United States and the people of said States.

First. That perfect toleration of religious sentiment shall be secured, and that no inhabitant of said States shall ever be molested in person or property on account of his or her mode of religious worship.

Second. That the people inhabiting said proposed States do agree and declare that they forever disclaim all right and title to the unappropriated public lands lying within the boundaries thereof, and to all lands lying within said limits owned or held by any Indian or Indian tribes; and that until the title thereto shall have been extinguished by the United States the same shall be and remain subject to the disposition of the United States, and said Indian lands shall remain under the absolute jurisdiction and control of the Congress of the United States; that the lands belonging to citizens of the United States residing without the said States shall never be taxed at a higher rate than the lands belonging to residents thereof; that no taxes shall be imposed by the States on lands or property therein belonging

to or which may hereafter be purchased by the United States or reserved for its use. But nothing herein, or in the ordinances herein provided for, shall preclude the said States from taxing as other lands are taxed any lands owned or held by any Indian who has severed his tribal relations, and has obtained from the United States or from any person a title thereto by patent or other grant, save and except such lands as have been or may be granted to any Indian or Indians under any act of Congress containing a provision exempting the lands thus granted from taxation; but said ordinances shall provide that all such lands shall be exempt from taxation by said States so long and to such extent as such act of Congress may prescribe.

Third. That the debts and liabilities of said Territories shall be assumed and paid by said States, respectively.

Fourth. That provision shall be made for the establishment and maintenance of systems of public schools, which shall be open to all the children of said States, and free from sectarian control.

Approved February 22, 1889.

PARTY PLATFORMS, 1889.

IOWA REPUBLICAN, AUG. 15.

The Republican Party of Iowa favor a liberal construction of the pension laws and such further legislation as will secure to the old soldier his just dues from a Government he has faithfully served and which he has enriched by his sacrifice.

That we demand of Congress the protection of American industry when it does not foster trusts or trade conspiracies, and we demand the same protection for farm products that is given to the products of the labor of other classes.

That we reaffirm the principle and policy of State railway regulation. We favor maintaining equality among all localities and individuals, and we oppose the granting of favor to one class of citizens denied the others, and should experience demonstrate the necessity, we favor such changes in the law as should be made in the interests of right and justice to all. We urge upon Congress the absolute prevention of rebates and discriminations on railways that foster monopolies and prevent competition.

That it is the duty of the State and Federal Governments to enact and execute laws to punish trade conspiracies, trusts and combines designed to limit the production of the necessities of life, unnaturally disturb, raise prices and interfere with the natural course of trade, and which injuriously divert trade and traffic from the cities and towns of Iowa to commercial centres outside of our borders.

That we reaffirm the past utterances of the Republican party of Iowa upon prohibition, which has become the settled policy of the State and upon which there should be no backward step. We stand for the complete enforcement of the law.

That we deplore the loss of life on our railways and the dangers attending so many of our citizens engaged in railway employment, and we urge upon the Legislature to take such practical steps as will secure all possible protection to this class of our people.

That we favor the establishment of courts of arbitration for the settlement of differences between corporations and organized labor.

IOWA DEMOCRATIC.

We renew our opposition to the unconstitutional and unjust policy of high tariff taxation, which robs the many to enrich the few, makes the producer the slave of the manufacturer, lays its heaviest burdens on the farmer, the mechanic and the day laborer, gives no returns through any channel to those whom they daily rob, and fosters all trusts which are the legitimate results of our present tariff system, and we denounce the fallacy of the Republican State platform of Iowa that a high tariff is or can be any protection to the farmer.

We favor the Australian system of voting, to the end that we may have an honest ballot uncontrolled by bribery or employers.

We recognize the doctrine of State and National regulation of railroads and other corporations, and approve the same as an efficient means of protecting the people against unjust discrimination and oppressive rates.

In the interest of true temperance we demand the passage of a carefully guarded license tax law which shall provide for the issuance of licenses in towns, townships and municipal corporations of the State by vote of the people of such corporations, and which shall provide that for

each license an annual tax of \$500 be paid into the county treasury, and such further tax as the town, township or municipal corporation shall prescribe, the proceeds thereof to go to the use of such municipalities.

We also arraign the Republican party for changing the pharmacy laws of the State, by which a great hardship and gross indignity has been imposed on honorable pharmacists and upon all the people requiring liquor for the actual necessities of medicine.

While we demand that all honorably discharged Union soldiers who were injured in the line of duty, or who are unable by reason of age or other infirmities to support themselves and their families, shall receive liberal pensions and the special care of the Government, we denounce as an insult to every brave soldier and as making the pension roll a roll of dishonor, the decision of the present National Administration that "the dishonorable discharge of a soldier from the service of the United States is no bar to a pension."

IOWA UNION LABOR, SEPT. 5.

The platform favors the election of United States Senators by the people; paying the National debt face value; loaning money to farmers by the Government at low rate of interest; Government operation of railroad and telegraph; income tax; Australian ballot system, and the reclamation of unearned land-grant claims.

MARYLAND REPUBLICAN, OCT. 1.

While we acknowledge gladly that the great bulk of our Democratic fellow-citizens desire, as we do, just registration laws and fair elections, we deny that their party leaders share this desire, or purpose voluntarily to relinquish the unworthy practices to which they have so often owed their retention of power, and in proof of this denial we point to their refusal to permit the admirable bill prepared by Mr. James Alfred Pearce, of Kent County, to become a law at the last session of the General Assembly, and by their discreditable attempt (happily frustrated by public opinion) to substitute for it a statute which, under the pretence of reform, would have perpetuated and aggravated the worst evils of the previously existing system.

And we promise to make every effort to obtain from the next General Assembly the enactment of Mr. Pearce's law, with the addition of such features of the so-called Australian ballot system as may be found suited to our institutions and adapted to protect the purity of the elective franchise.

We recognize with pleasure the progress made by the colored race under the enjoyment of civil and political liberty and we favor guaranteeing, by appropriate legislation if necessary, the employment of colored teachers in all colored schools, when by so doing equal advantages in the way of education can be afforded, and we advocate a more ample provision for the education of the colored race; and we denounce the practice of the Democratic party in its systematic and persistent attempts to deprive the colored citizens of the right

of franchise; its effort by groundless arrests and other modes of intimidation to deter them from the exercise of their rights as a violation of the spirit of the Constitution and an indication of a settled purpose to rob them of the most cherished privilege of freemen, and we reassert it as the determination of the Republican party to maintain these rights in the fullest extent, and to give this class of our citizens the amplest protection of the laws.

We recognize intemperance as the fruitful source of pauperism and crime, of political corruption and social degradation, and we pledge ourselves to the adoption of those measures which have been found by the experience of other communities most efficient in eradicating the evils, and in restricting and regulating the traffic in intoxicating liquors, and compelling it to bear its full share of the pecuniary burdens which it imposes upon the community; but such legislation must in no wise abridge the privilege already granted, or which may be granted in the future, to counties or smaller communities throughout the State to prohibit by popular vote such traffic within their limits.

We reaffirm the declarations made by the Republican party of our State in its convention of 1887 with regard to selections for and the tenure for civil offices.

MARYLAND DEMOCRATIC, SEPT. 27.

They unite with their Democratic brethren in our sister States in pointed condemnation of the vast combinations of capital in many of the most important and necessary branches of industry and business, which, under the misleading name of "trusts," have inflicted such serious injury upon the people, and which, unless arrested in their powerful organizations, will create great and alarming distress by limiting the supply and ruinously enhancing the price of many articles of prime necessity, at the mere pleasure of the managers of these illegal combinations. Vigorous measures should be taken to check this great and growing evil.

By a judicious adjustment of licenses to sell liquor, with the superadded restrictive features which experience elsewhere has proved to be salutary and effectual, such legislation should be made to subserve the double purpose of reducing the rate of taxation on property, to the great relief of the people, and at the same time of largely removing from our midst the degrading and destructive vice of intemperance.

Recalling with just pride the reforms in the laws relating to the registration of voters and to the elective franchise which Democratic Legislatures have enacted, the faith of the party is now distinctly pledged to a further and more careful review of this fundamental and most vital subject, so that at the coming session of the General Assembly, following the good example set by many of our sister States, stringent provisions may be adopted for the purpose of preserving more thoroughly the purity of the ballot-box by preventing bribery, fraudulent colonization of voters, repeating, and all other offences against the elective fran-

chise; and also, that such amendments of our existing registration law may be made as will materially reduce the cost, while not impairing the efficiency of its execution. In this connection they favor the passage of a thorough primary election law, so drawn as to secure absolute fairness at all primary elections, and containing adequate and effectual provisions against violence, fraud and all corrupt practices by which the will of the majority may be falsified, thwarted or ignored.

They declare their sincere and determined purpose to recognize and enforce all the civil and political rights of the colored people of this State, but while thus earnestly resolved to see to it that in their persons and property they shall be fully and thoroughly protected, and that the present liberal provisions for the education of their children shall be maintained, they insist that the schools for the white and colored children shall be kept separate and distinct, and they will vigorously resist any and all attempts to change the existing law so as to introduce mixed schools for both white and colored children.

MASSACHUSETTS REPUBLICAN,

SEPT. 25.

We congratulate the country upon the restoration of the Government to the hands of the party which has been tried and never found wanting. We are gratified by the prudent management of the Treasury, by which the National debt is extinguished at reasonable prices, and the money market protected against speculative combinations. We rejoice in the restoration of dignity and vigor to the conduct of our foreign affairs and cordially approve of the thoroughly American policy indicated by our negotiations with Germany, where firmness has taken the place of bluster and brought forth honorable peace instead of timorous and confused concession.

We wish to commend the policy of the President in regard to Civil Service reform, as shown by his adherence to the law, by his extending its provisions to a large branch of the public service and by the character of the Commission which he has selected to carry out the law, both in letter and spirit. We assure him that in every effort to extend the law regulating the Civil Service and to root out the evil of patronage from our politics, he and his Commissioners will receive the hearty support of the Republicans of Massachusetts and of her Representatives and Senators.

To our Senators and Representatives in Congress we would say that the Republicans of Massachusetts look to them to demand a sound currency and resist an increase of the present silver coinage; to use every exertion to bring about a reduction of the surplus revenue; to support a thorough and equitable revision of the tariff so as to adapt the protection which it affords to changed business conditions affecting New-England industries in common with those of the rest of the country; to maintain the American system of protection to American industry and labor with which the party marched to victory at the last election, and which

is identified with every period of our National prosperity; to strive without ceasing to secure a National election law which shall give protection to the National ballot and to the citizen in casting it; to continue the just and liberal policy of the Government toward the soldiers and sailors who defended it; to give aid to our steamship lines and begin the building up of our merchant marine, and to vote for and support ample appropriations for the American Navy, so that we may secure at once a powerful fleet able to defend the American coast and the American flag and to be a guarantee of peace with all the world.

We believe also that our fellow-citizens of all colors and races can dwell together in true Republican harmony and honor, if the same policy of equality, justice and universal education under which they have dwelt together in Massachusetts be extended to the entire country. We hope every reasonable aid may be given to education by the powers of the Nation and the States, and trust those powers may be exercised to their fullest extent.

In State affairs, the question deservedly most interesting to the people of this Commonwealth is that of temperance. The recent action of the people upon the proposed Prohibitory Amendment to the Constitution, which was submitted to them as promised by the Republican party, remits the question of suppressing the sale of intoxicating liquors to the Legislature, which is fresh from the people and familiar with their will. But we declare our hostility to the corrupting moral and political tyranny of the liquor saloon, that every law against it shall be maintained and enforced, that no backward step shall be taken, and that further legislation shall be had whenever it can secure further suppression of this terrible evil.

We pledge ourselves to maintain and defend the public schools of the Commonwealth and to preserve the public school funds, whether State or municipal, for the sole benefit of the public schools, and to raise the standard of public education to the highest point.

MASSACHUSETTS DEMOCRATIC, OCTOBER 2.

The resolutions declare the party's continued and hearty support of the cause of Tariff Reform and express the firm conviction of its success in the near future; reaffirm the demand for free raw materials and lower duties upon the necessities of life, believing that free wool is essential to the prosperity of the woollen industry, upon which that of the wool-grower is dependent, while it will afford relief to all consumers of woollen goods, and call the particular attention of the farmers of the State (who have borne the heavy burden of high tariff taxation without any of the prosperity promised them) to the relief they will receive through the reduction of customs taxes upon articles which they use or consume.

They demand that all materials for shipbuilding, whether of metal or wood, be relieved from the heavy taxation now imposed upon most of them and made free

of duty, to the end that American ship-builders may be placed in a better position to construct ships capable of competing upon the ocean with those of foreign countries.

They condemn the Republican Administration for its laxity in Civil Service reform, and for its reckless management of the Pension Bureau; favor just and liberal pension laws; oppose National election laws; reiterate the demand for local self-government in Massachusetts; indorse the Local Option law; express sympathy with the demands of labor; indorse the demand for the publication of campaign expenses and for the Secret Ballot law; pledge the maintenance of the public school system; call for the abolition of the Metropolitan Police Commission; favor a continuance of the progressive naval policy of Secretary Whitney; express the belief that the New-England railroads should be restrained by law from giving unfair advantages to Pennsylvania and other States in traffic arrangements, and call the attention of the farmers to the relief a reduction of customs taxes on articles which they shall use or consume will give them.

MASSACHUSETTS PROHIBITION, SEPTEMBER 4.

The resolutions take the usual stand in favor of constitutional and statutory prohibition, and arraign both the Republican and Democratic parties for lack of interest in the suppression of the rum traffic. They also favor suffrage resting on the relations of the citizen to the State and not on color, race or sex. The tariff plank calls for a revision of tariff taxes, for the enlargement of industries, and for placing them upon a more permanent, natural and equal basis.

NEW-JERSEY REPUBLICAN, SEPTEMBER 17.

We favor the enactment of statutes reforming the election laws of the State to prevent fraud and false registration, and for the purpose of establishing the Australian or other like system of voting, whereby the voter shall be enabled to act independently and intelligently in the exercise of his citizenship. Such legislation will tend to perpetuate popular government.

Compulsory education is upon the statute books of our State by the enactment of a Republican Legislature, and we demand the enforcement of the law in all cases by the proper officers, and promise such additional legislation as may be necessary to provide facilities for the accommodation in the public schools of all children between the ages of eight and fourteen, not found in any other school.

The Child-Labor law of the State is of Republican enactment, and we demand its enforcement in order to prevent children being put to trade in early youth, and being broken down in body and untutored in mind before they have sufficient physical development to stand the strain of manual labor.

The request of the wageworker for reasonable hours of labor, and the designation of a definite portion of each week

for recreation, demands and should receive legislative consideration.

With the National Republican Convention of 1888, we declare that the Republican party of the Nation stands for purity, for temperance and the preservation of the home. The Republican party of New-Jersey stands committed by its platforms and legislative enactments to the most thorough measures that will be sustained by the people, and pledges itself to such legislation as will most speedily and thoroughly eradicate the evil of intemperance. We resent the intrusion of the liquor power, as an organized force, into the politics of the State. The attitude of the two parties on this question is so clearly marked that no intelligent voter can be deceived by any omission of either to make a declaration on this subject. We heartily commend and unqualifiedly indorse the action of the Republican minority in the Legislature of 1889 upon all questions of morality and State and party policy.

NEW-JERSEY DEMOCRATIC, SEPT. 10.

That the increasing number of combinations to control the necessities of life is a fruitful source of alarm to the people. The so-called "trusts," which are combinations to control prices without regard to the natural rules of supply and demand, are opposed to the letter and spirit of our laws. They cannot be justified upon any fair plea of commercial enterprise. For the benefit of a few these combinations inflict cruel burdens upon the many, causing penury and misery among those who are dependent upon the product of their daily toil. The tendency of our advancing civilization is to increase the general average of human happiness, and the corrective hand of the law must be used to abate conspiracies which are stumbling blocks in the way of the general progress of the people.

We demand a strict enforcement of the laws regulating the employment of children. It is the duty of the State to see that every child receives a fair education, and is protected from employment in pursuits calculated to injure the mental or physical value of future citizenship.

We pledge our party to the advancement of the public educational interests of the State. The common-school system must be fostered and extended so that no excuse can exist for ignorance.

We recognize the value of agriculture and our other industrial interests as the basis of National and State prosperity, and pledge to them a policy of liberal encouragement in fixing charges for transportation in or through this State. Common carriers should not be allowed to discriminate against the citizens of New-Jersey.

We recognize the dignity of labor and the necessity of proper legislation to protect its interests, and shall unswervingly oppose every attempt to lessen the fruits of toil or to place honest workmen in competition with paupers or convicts.

We demand reform in the matter of municipal expenditures throughout the State. By reason of the constantly in-

creasing cost of municipal government the growth of many of our cities and towns has been greatly retarded. We therefore insist upon the enactment of laws limiting taxation for municipal uses.

We favor such revision of the election laws of the State as will guarantee to every voter the greatest possible secrecy in the casting of his ballot, and secure the punishment of any who attempt the corruption or intimidation of voters.

NEW-JERSEY PROHIBITION, JULY 19.

The resolutions also declare unalterable opposition to the liquor traffic, favor separate party organization and action, denounce bribery at elections, favor the Australian system of voting, condemn all trusts, demand the preservation of the sanctity of the Christian Sabbath, recommend the passage of a law requiring the public school teachers of New-Jersey to give lessons in physiology and hygiene relative to the effects of strong drink on the human system, congratulate the Women's Christian Temperance Union for its good work, and place the responsibility of the continuance of the liquor traffic upon good temperance people who remain in the old parties. The ninth resolution is as follows:

"That we are opposed to any of our citizens being disfranchised by the usurpation of authority by officials of this State. The same principles of right that allow women to vote at school meetings should be extended to all other questions."

NEW-YORK REPUBLICAN, SEPT. 25.

The Republicans of New-York rejoice in the restoration of Republican supremacy in the Nation, and take pride in the part this State had in that result. We congratulate President Harrison upon the success of his Administration and declare our perfect confidence in its integrity, efficiency, and patriotism. We reaffirm the National Republican platform of 1888 and emphasize our approval of these doctrines: Protection to American industries and to American labor; the extension of American trade and fostering of American shipping interests; liberal and equitable pension laws and a discriminating preference of Union veterans in appointments to public offices; a National election law to secure the honest choice of Representatives in Congress; the restoration of the efficiency of the postal service; the rehabilitation of the Navy; the purification and elevation of the Civil Service; the encouragement of popular education and promotion thereby of National patriotism.

We commend the action of the successive Republican Legislatures in enacting wise and beneficent public measures, including the law taxing collateral inheritances, which has already relieved the burdens of taxation by over \$2,000,000; the law taxing incorporation, which produces \$200,000 annually; the law making employes first preferred creditors in assignments; the law providing for the proper discipline and employment of convicts, and the law protecting the products of the farm and dairy.

We arraign Governor Hill as a public enemy for defeating by his vetoes the fol-

lowing measures of legislation: The enumeration bill, twice passed in obedience to the requirement of the Constitution; the Constitutional Convention bill, passed in pursuance of an overwhelming vote of the people; the Anti-Bribery bill, to prevent the corruption of voters and the intimidation of employes at elections; all measures for excise revision and reform, notwithstanding their approval by prominent men of all political parties; the Ballot Reform bill, twice passed, to secure a pure and untrammelled ballot; the Liquor Tax bill, twice passed, which would have lightened the burdens of taxation on homes and farms to the extent of \$3,000,000 annually—all of which measures were passed by Republican Legislatures in response to the demand of an enlightened and patriotic public sentiment. We denounce these vetoes as being subversive of the rights of the people's representatives, and as being autocratic and revolutionary. The repeated efforts by Republican Legislatures to secure ballot reform and thoroughly practicable temperance legislation are proofs of the right purpose and good faith of the Republican party. No step backward will be taken, and we pledge our determination to persevere until salutary and adequate provisions of law on these vital subjects are embodied in the statutes of the State.

We urge the continuance of efforts to render impossible improper combinations and conspiracies known as "trusts," which have for their object the restriction of trade and the enhancement in cost of the necessities of life. The maintenance of the canal system in its highest efficiency and usefulness is demanded as necessary to the regulation of freight rates and the continued commercial supremacy of this State.

Resolved, That this convention recognizes the importance of the great historical event which it is proposed to commemorate by the World's Fair of 1892. Appreciating the stimulating effect of such a celebration upon the industrial and commercial interests of the country and the National welfare, we hereby cordially indorse the enterprise, and declare that it should be conducted on a scale and in a manner commensurate with the greatness of the Nation and the patriotism of the people. The selection of the chief city of the Empire State, the commercial metropolis of this continent, as the place for this fair, is hereby cordially approved. We urge that such action be promptly taken by Congress and the Legislature of this State as shall be needed to make this great event a success.

NEW-YORK DEMOCRATIC, OCT. 1.

The Democratic party of the State of New-York, in convention assembled, renews the pledges of its fidelity to Democratic faith, and reaffirms the doctrines of the National platform of 1888, adopted at St. Louis. We have not advocated and do not advocate free trade, but we steadfastly advocate the principles of tariff reform, believing that adherence to the right alone carries in itself the certainty of triumph. We heartily indorse the honest and fearless administration of the National Government by Grover Cleveland.

We charge that the Republican party

at the last Federal election obtained power in the Nation by corruption and false pretences, by intimidation and coercion of voters, by promises unperformed and pledges unredeemed, and by shameless trafficking of Cabinet and other offices in its gift to the highest bidders, and, though its candidates by these unscrupulous means received more than half the votes of the electoral college, its doctrines and principles were repudiated by a majority of the voters of the country.

We arraign the chief Executive of the United States for a disgraceful violation of the pledge contained in his letter of acceptance, to wit: "In appointments to every grade and department fitness and not party service should be the essential and discriminating test, and fidelity and efficiency the only sure tenure of office." In that he, not in exceptional instances, but with sweeping hand, removed hundreds of honest and capable officers before the expiration of the terms for which they were appointed.

Malintaining, as heretofore, that improper combinations of capital which limit production, fix the price of commodities regardless of the cost of production, reduce the wages of labor and crush out the smaller independent dealers, and thus strangle legitimate competition, are conspiracies, we demand legislation to prevent such combinations. We point to the fact that while the last two Republican Legislatures have defeated all additional legislation desirable for their complete suppression, the legal department of the State, under Democratic administration, has instituted and carried to a successful issue litigation having the destruction of such conspiracies as its aim.

We arraign the late Republican Legislature for imposing the heaviest State taxes in both rate and amounts from 1875. We condemn, as reckless, improvident and unnecessary, the increase in taxes from \$9,000,000 to \$12,500,000, at a time when the people are poor and the burdens of taxation are especially oppressive. We commend the vetoes of a Democratic Governor, which have saved to the taxpayers of the State \$2,000,000, and we pledge that the Democracy, if intrusted with control of the legislative branch of government, will give to the people lower taxes and economical expenditures. We believe that unnecessary taxation is unjust taxation.

We do not favor the unrestricted sale of intoxicating liquors on the one hand, nor prohibition on the other. We believe that the liquor traffic should be restrained and regulated by just and equitable excise laws, rigidly enforced, which laws, in their operation, should be substantially uniform throughout the State.

We believe all excise revenues, whether called license fees or taxes, should belong to the local treasuries of the localities under whose authority licenses are issued, to be applied in reducing the burden of local taxation.

We are opposed to all sumptuary legislation that needlessly interferes with the personal liberty or reasonable customs of the people; we favor the largest liberty for the individual citizen consistent with the public welfare.

We oppose the passage of the prohibition amendment upon which the next Legislature is required to act, and we denounce the hypocrisy of the Republican party of this State, and of the States of Massachusetts, Rhode Island and Pennsylvania, in submitting, or proposing to submit, prohibition amendments, only to defeat them at the polls.

We arraign the Republican party for its dishonest treatment of the temperance question. We point to the fact that an excise commission, in its majority largely Republican, was, upon the recommendation of a Democratic Governor, in 1888, appointed by the Legislature itself, to revise the excise laws, and thereby secure a just and proper solution of the temperance question; that this commission, consisting of seven members, five of whom were Republicans, reported a measure known as the "Excise Commission bill," that this measure was supported by the Democratic members of the Legislature, but was repudiated by the Republican legislators, who, in its stead, passed a bill extreme in its character, liberal in its provisions and unjust in its discriminations, drafted for the sole purpose of securing executive disapproval, in order that the temperance question should continue to be an issue in political contests. Such dishonesty and hypocrisy we denounce as a breach of faith with the people.

The Republican party, loudly proclaiming itself as favoring higher license fees, designedly ignores the fact that the excise boards in the cities, towns and villages of five-sixths of the counties of the State are under Republican control, and that, with the sanction and approval of the Republican leaders, such boards impose scarcely one-third of the amount of fees permitted under existing laws. We believe that in this matter reform should begin at home, and we denounce their utterances, so inconsistent with their acts, as additional proofs of the dishonesty with which the Republican party treats this question.

The Democratic party renews its declaration in favor of electoral reform. We demand such changes in our election laws as will more effectually promote the secrecy of the ballot, stop corruption at the polls and prevent the intimidation and coercion of electors. The Republican majority refused to enact a just and reasonable measure at the last session of the Legislature, but instead thereof passed a bill containing provisions which were unconstitutional, grossly defective, clearly impracticable and otherwise objectionable, and which properly met with executive disapproval. Its insincerity was manifested in its subsequent refusal to enact any different measure for securing ballot reform. We earnestly insist upon a free, pure and untrammelled ballot, and to the accomplishment of that end will favor any reasonable and practicable measure which is free from constitutional and other radical defects and has for its true and honest purpose the secrecy of the ballot and the eradication of the evils of corruption, bribery and intimidation at elections.

We arraign the Republican party for treason of the Constitution. The last Legislature, following the lawless example of the four previous Legislatures, refused to provide for an enumeration of the people as a basis of an apportionment of the Senate and Assembly districts of the State, and has thus perpetuated the control of the minority of the State in the law-making branch of the Government, in defiance of the will of the majority, and in shameless contravention of constitutional requirements. It has also refused to enact a proper measure for creating a constitutional convention, as required by the vote of the majority of the people of the State. We charge that the Republican party has not desired either an enumeration or a constitutional convention. Its professions in favor of either are false and insincere. The only act relating to enumeration which it ever passed was one in 1885, which coupled with an enumeration an elaborate, complicated and unnecessary census, which would have cost the taxpayers of the State over four hundred thousand dollars, and which invited and warranted Executive disapproval. The only act which it ever passed for a constitutional convention was one in 1887, which unwarrantedly appointed the holding of the convention for a year, and provided an unjust and improper basis of representation, which objectionable features rendered it impossible of approval. Successive Republican Legislatures have subsequently refused to pass any measure providing for a simple enumeration of the inhabitants, or to provide for a constitutional convention upon a basis of representation founded upon the latest apportionment.

We oppose needless special legislation. We believe in home rule for cities. We demand a rigid enforcement of the laws enacted by the Legislature for the benefit of the workingmen of the State. We favor a revision of the tax laws, whereby personal and corporate property shall be made to bear its full and just burdens. We sympathize with all efforts having in view the advancement of the interests and the improvement of the condition of laboring men, and will continue to give our hearty support to the legislation which seeks to accomplish these ends. We favor a continuance of the policy which seeks to improve the canal system of the State and maintain its efficiency. And we condemn the last Legislature for its refusal to pass any measure to secure to the people of the city of New-York the benefits of rapid transit.

We heartily indorse the Democratic Administration of Governor David B. Hill. He has been a consistent exponent of Democratic principles, and we specially commend his able, bold and vigorous exercises of the veto power whereby the people and property of the State have been protected against the assaults of a partisan, reckless and improvident Legislature. We commend the able and wise administration of his various associates in the State departments, and submit that the splendid record of honesty and efficiency made by them justifies a continuance of the trust reposed in the Democratic party, of which they are faithful representatives.

NEW-YORK PROHIBITION, SEPT 5.

The Prohibition party of the State of New-York, in convention assembled, acknowledging God as the source of all power in government and heartily indorsing the National platform adopted at Indianapolis, does hereby declare:

1. That the prohibition of the liquor traffic, State and National, should be the dominating and dividing political issue until such prohibition shall have become the recognized and settled policy of the Government.
2. That to vote for the candidate of a license party is practically to vote for license.
3. That we heartily approve the declaration that the liquor traffic can never be legalized without sin, and that license, high or low, is vicious in principle and powerless as a remedy.
4. That we demand the rigid enforcement of the prohibition provisions of the excise laws.
5. That local option has proven unsatisfactory, being too local and too optional, yet in the future, as in the past, we will, where the question is presented, vote for no license, but we refuse to accept local option as a substitute for the policy of prohibition.
6. We recognize the duty of the coming Legislature to submit to the electors of the State an amendment to the Constitution prohibiting the liquor traffic, but, as the political machinery of both the old parties and almost the entire press of these parties in every recent contest have been combined for the defeat of prohibition, we protest against any such submission by any political party whose only purpose is prohibition defeat; and we further declare that if the amendment is submitted in this State, the Prohibition party will make every possible effort to secure its adoption.
7. That the right of suffrage rests on no mere circumstance of race, color, sex or nationality.
8. That the law should be so amended as to require ten years' residence for naturalization.
9. That we are opposed to all trusts and monopolies in the necessities of life.
10. That the American Sunday, in the interest of public order, should be jealously guarded.
11. That the purchase and sale of votes should be punished with disfranchisement.
12. That the principle of Civil Service reform should be honestly applied in appointment to office.
13. That we demand for the laboring man and woman adequate compensation for their work, and protection of all their rights; we urge upon their attention the fact that the liquor traffic consumes their hard-earned wages, resulting in poverty and distress, and commend to their attention the statement of Master Workman Powderly to the effect that if he had a million tongues he could not adequately express his abhorrence of the traffic and the great injury it does to the working people; that we are in favor of each man paying taxes on what he owns, not on

what he owes; that the Government can afford to be, and ought to be, just and generous to the honorably discharged soldiers and sailors of the Republic, but that the doors of the United States Treasury ought not to be thrown open to gratify the desires or satisfy the greed of claim agents and unscrupulous politicians.

14. We most earnestly invite to equal privileges in our ranks all persons who agree with us on the single point of unyielding opposition to the liquor evil.

15. That the Prohibition party will accept no compromise for the settlement of this overshadowing moral and political issue of the age, the extermination of the liquor evil of our Nation, but will continue persistently to labor until we have secured its death by the ballot and planted our victorious forces behind the law for its enforcement.

PENNSYLVANIA REPUBLICAN, AUG. 7.

We greatly rejoice in the National victory of 1888 for a two-fold reason; first, because it was fought and won under Pennsylvania leadership and upon a Pennsylvania platform, and, second, because the Executive and Legislative power in the Union has thereby been restored to the Republican party, which, within a period of less than thirty years, has rescued the country from the perils of rebellion, of treacherous reconstruction, of financial dishonor and of reckless industrial legislation. All of which were distinctly involved in the policy or acts of the Democratic party as now governed.

Protection is the cornerstone of our political faith. Its greatest blessing is that in protecting the American laborer and manufacturer, it strengthens and builds up all interests, resulting in the promotion of a great diversity of business enterprises, and a home market. It thereby nurtures not only the interests primarily and directly protected, but all interests, particularly agriculture, which finds in the certainty and higher prices of a home market its great advantage. Pennsylvania Democrats have until recently claimed the unique distinction of being Democratic Protectionists. At last, however, the controlling element in that party, not only in the Nation, but State, has unequivocally announced its antagonism to protection. It is our duty to take advantage of this opportunity and press home this living issue. We will thereby deal Democracy its death-blow in Pennsylvania.

If protection to American industry be the cornerstone of our political faith, then protection to those who fought in defence of the Union is its capstone. We reverence the memory of those intrepid martyrs who gave up their lives upon the field of battle, and of those other heroes, burdened with years and covered with scars, who have since gone to their rest. But tears will not suffice for the tens of thousands of brave soldiers who still survive. We advocate such amendments to the pension laws as will make adequate provision for all honorably discharged veterans of the late war whose advancing years, wounds or other infirmities

disable them from total or partial self-support.

The Republican party having in 1886 declared in favor of the submission of the question of the prohibition of the manufacture and sale of intoxicating liquors to a vote of the people, and having, in two successive Legislatures, through the method ordained by the Constitution, and in spite of Democratic opposition, provided the machinery for reaching a fair expression of the public sentiment, and the vote to secure which it was pledged having been taken, declares that it has fully and honorably fulfilled its compact in this regard.

In view of the result of said election, and having regard for the preservation of the purity of the homes of our Commonwealth, we heartily indorse the Brooks High License Law, and recommend such amendments thereto as will tend to its proper and progressive improvement, and also bring within its scope the control of wholesale licenses.

PENNSYLVANIA DEMOCRATIC, SEPT. 4.

That all powers not expressly granted to the General Government are withheld, and a sacred observance of the rule of construction contained in the tenth amendment of the Constitution itself is essential to the preservation of the principles of home rule, and of pure, honest and economical government, to the end that labor may not be robbed of the bread it has earned.

We applaud the action of President Cleveland and our Democratic representatives in Congress looking to tariff tax reform; and we reaffirm the declaration of principles made by the Democracy of the Union at St. Louis in 1888, especially that demanding a revision and reduction of tariff taxes for the relief at once of American labor, American industries and American taxpayers, by the repeal of such tariff taxes as now invite and protect monopoly, a greed that lessens production, lessens employment of labor, decreases wages and increases cost to consumers; and by the admission of raw material free of duty in all cases where it will enlarge our product, multiply our markets and increase demand for labor.

We regard trusts in whatever form organized as the result of the existing monopoly tariff, and we demand the repeal of such tariff taxes as enable them to control domestic production by unlawful combination, and to extort from the people exorbitant prices for their products.

We accept the decision of the people of Pennsylvania, rendered by the ballot on the prohibitory amendment, as a declaration in favor of a reasonable, just and effective regulation of the traffic in ardent spirits. We hold that the agreement of the Republican party, through its representatives in the Legislature, to the proposed prohibitory amendment to the Constitution, and its defeat at the polls, in spite of the Republican majority of 80,000 votes, are facts that establish beyond doubt the hypocrisy of the Republican lead-

ers in their treatment of the question of prohibition.

We favor the Australian ballot system as adapted to meet the requirements of our Constitution and the special wants of our people, in order to secure the freedom and purity of elections menaced by combined power of monopoly and the corruption of Republican rings and bosses.

While we favor a liberal system of pensions to such veterans of the late war as have been honorably discharged, and who, from wounds or other physical infirmities, have been rendered unfit for manual or other labor, we deem it unjust to that large class of those faithful soldiers of the Union who take a just pride in the heroic achievements of their comrades in arms that there should be added to the pension roll the names of any who are not qualified therefor by reason of honorable and faithful service in the line of duty.

PENNSYLVANIA PROHIBITION, AUG. 28.

We are unalterably opposed to any law, by whatsoever name called, that in any way legalizes, authorizes or tolerates the traffic in intoxicating liquors as a beverage, and maintain that the policy of the Government should be that of prohibition of its manufacture, importation and sale by National and State statutory and constitutional enactments, faithfully enforced, to which policy the Prohibition party is uncompromisingly committed.

We favor the "Australian system" of voting as a means to insure a fair expression of the will of the people at the ballot box. All citizens, without distinction of sex, race or nationality, should have the power of the ballot (upon such educational basis as the Legislature may deem wise) for their protection and the advancement of the best interests of the State.

The naturalization laws should be so amended as to increase the number of years' residence required before foreigners should be invested with the elective franchise.

Combinations or trusts that seek to advance the price of commodities of life, or in any way to interfere with the unrestricted manufacturing interests of the country, by forced "close-downs," "lock-outs," etc., should be prohibited. . . .

OHIO REPUBLICAN.

We renew our adherence to all the principles so clearly and strongly enunciated by the Republican National Convention of 1888, and especially to the principles of protection in its two-fold meaning and operation; protection to every American citizen at home in all parts of our country; protection to every American citizen abroad, in every land, on every sea; protection to every American citizen in the exercise of all his political rights and privileges; protection to American industry and labor against the industry and labor of the world.

We heartily approve and indorse the Administration of Benjamin Harrison, President of the United States, and pledge him our cordial support in the discharge

of the duties devolving upon him as the Chief Magistrate of the Nation. And especially do we commend the just and liberal policy of the Pension Bureau in carrying out the pledges of the loyal people to the soldiers of the Union.

That we favor the passage by Congress at its next session of a proper and equitable service pension bill for all honorably discharged union soldiers and seamen of the late war.

We demand full and adequate protection for the wool-growing industry, which will, in due time, give to American wool-growers the American market for all the wool required by American wants. We indorse the provisions on this subject of the bill passed by the Senate at the last session of Congress.

We heartily indorse the decisions of the Secretary of the Treasury whereby worsted cloths are made dutiable at the same rate as other woollen cloths, and wool-tops and wastes are made to pay the duties intended by the laws. This reversal of the action of a Democratic Secretary of the Treasury has given new life and prosperity to the wool-growing industry.

We congratulate the people of Ireland on the progress of their struggle for Home Rule, and in this connection we indorse the course of President Harrison in selecting for honorable places in the diplomatic service worthy and representative Irish-American citizens.

We indorse the wise laws passed by the Republican Legislature in regard to the liquor traffic; and pledge the party to keep abreast of public opinion upon that subject.

OHIO DEMOCRATIC, AUG. 28.

The Democracy of Ohio, in convention assembled, approve the declaration of principles made by the National Democracy in St. Louis in 1888, and especially that part of it demanding reduction of tariff taxes. We will continue the battle for tariff reform until the cause of the people is triumphant.

We regard trusts, in whatever form organized, as the legitimate result of our present tariff system; and we demand the repeal of all tariff taxes that enable them to extort from the people exorbitant prices for the products they control.

We again acknowledge the great debt of gratitude the Nation owes to the heroes of the late war, and we declare in favor of just, liberal and equitable pension laws.

We denounce the Republican Administration for its repeated violation of its pledges in behalf of Civil Service reform. . . .

We heartily favor Home Rule in Ireland, we demand it also for Ohio. While favoring all laws that sacredly protect the ballot-box and the honest voter, we demand the enactment of laws that will enable our cities to choose their own servants and control their own affairs.

VIRGINIA REPUBLICAN, AUG 22.

It appeals to the people because it made suffrage free, and always respects and defends the popular will and the ballot-box, which the Democrat oligarchy despises and defrauds; because, as our Con-

stitution, laws and history attest, it is the original author, restorer and ever-ready champion of our free school system, now deprived of free books by the hereditary foes of popular education and elevation; . . . because it readjusted the State debt which the Democrats have disadjusted, after all their vain and false protestations to the contrary; and because it alone has shown an honest disposition and a competent capacity to manage this debt; because it is manifest that this party offers the only free, rightful and peaceful solution of the race and sectional differences which the Democrats persistently inflame, and because, in everything State and National, Republicanism truly represents the popular aspirations for American progress and prosperity. That we are in favor of the speedy restoration of silver to its full monetary functions by its full and unlimited coinage at the National mints, and as a step toward such action, we recommend the coinage of the maxim amount now provided for by law—\$4,000,000 per month. . . .

That if it be entrusted with the necessary power by the people, it will settle the debt and the debt question wholly, finally and promptly, as it has full knowledge that it can do upon terms that will not add to the annual burdens of the people, and will yet leave the Commonwealth ample means for the current expenses of a frugal administration; for a general maintenance of our admirable system of free schools, and for munificent provision for our charitable institutions and the care of our disabled soldiers. The Republican party of Virginia points to its past records as surety for present promise and future fulfillment; more practical than sentimental it addresses the pockets as well as the patriotism of the people, and is sure it is right. It will move straight on to victory, construing the evasive yet abusive cries, catchwords, epithets of passion and prejudice, as Democratic confessions of wrong and of merited defeat. Peace and good will for all.

VIRGINIA DEMOCRATIC, AUG. 15.

We congratulate the people of Virginia that, through the wise legislation and administration of the Democratic party, the public schools have been preserved in efficient operation and their accommodations extended; that the resources necessary for the conduct of the Government in all its departments have been secured, and that the debt question has been put in train of final and acceptable settlement. We would reprobate as mischievous to all interests the reopening of an issue which has been the source of so much embarrassment and vexation to the Commonwealth; and with the continuance of the party administration which has dealt with it ably and wisely, we confidently look to its solution upon the lines of adjustment which the people have indorsed, and which the Democratic representatives have faithfully executed.

The Democratic party founded the public school system of this Commonwealth. The present efficiency of the system is the result of Democratic laws and Democratic effort. We will care for and support the public schools until every child shall be able to secure the benefits of edu-

cation. To this end we favor liberal appropriations by the Federal Government apportioned among the States in the ratio of illiteracy of their population. . . .

The party renews its adherence to the principles and policies of the tariff and internal revenue so often enunciated in the platforms of the State and National conventions of the Democratic party, and sustained by the voice of the people at the polls; and especially does it insist upon the immediate abolition of the tax upon tobacco and fruit brandies.

The Democratic party of Virginia favors the complete remonetization and the free coinage of silver. . . .

We believe that the men who were disabled in the service of the United States during the late conflict between the States, and the widows of those who lost their lives in such service, are deserving of aid and protection, and we favor such liberal appropriation within the revenues of the State as will tend to this end.

PLATFORMS IN THE NEW STATES.

NORTH DAKOTA REPUBLICAN reaffirms the National platform of the last campaign, glorifies the Republican party as the party that has secured for the emigrant his homestead, and advocates the moral and material welfare of the Nation; recognizes agriculture as the portion of the State and declares against the encroachments of corporations on the rights of the farmers; is uncompromisingly in favor of the American system of protection; favors liberal pensions to veteran soldiers who have been honorably discharged; declares sympathy with all movements in favor of temperance; demands the careful guarding of the public school lands, and indorses submission of Prohibitory Amendment.

SOUTH DAKOTA REPUBLICAN favors pensions for honorably discharged soldiers; sympathizes with the Irish people, favors a free market and equal and just taxation.

SOUTH DAKOTA DEMOCRATIC indorses and upholds free trade; congratulates the people on Statehood; opposes Constitutional Prohibition; sympathizes with labor organizations and pledges assistance to them; favors minority representation, and arraigns Dakota Republicans for extravagance and mismanagement in Territorial affairs.

WASHINGTON REPUBLICAN congratulates the people on the admission of Washington in spite of the long opposition of the Democratic party, whose chief efforts have been to prevent it, for fear that the fraud and intimidation and reign of terror by which free expression will be prevented will be useless with the accession of the new State; heartily commends the Harrison free American vigorous foreign policy, with comparison to Cleveland's foreign policy of bullying weak powers and truckling to strong ones, as set forth in his free-trade message and order for the return of the flags. It says the platform of the Republicans adopted in Chicago in 1888 acknowledges the necessity

of the revision of a protective tariff, but insists that it must be made by its friends instead of its enemies. Tariff for revenue only is rejected. The platform also denounces the Democrats for a second attempt to force American labor into competition with pauper Europe; it recognizes the right of labor to organize for self-protection; the debt to soldiers who saved the Union is too great to be repaid, but all legislation in recognition of or to alleviate the needs or the sufferings of soldiers or widows is approved. It commends liberal appropriations for river and coast defence by the Navy, and favors legislation restoring and promoting the merchant marine. It unequivocally pledges the representatives of the Republican party to work to open Columbia River; trusts and combinations which combine against labor are denounced; it indorses the Exclusion act,

and recommends to favor further legislation for the protection of American labor and to preserve the country for its citizens. It asks that the Indian reservations be opened as rapidly as justice to the Indians will permit.

WASHINGTON DEMOCRATIC approves the Administration of President Cleveland, and stands by the St. Louis platform; arraigns the Republicans for extortion, duplicity and fraud; declares in favor of free schools and the appropriation of public lands for public purposes; denounces the Chinese Exclusion Act as administered by Republicans; favors the opening of the Columbia River from one end to another; favors the building of forts for the protection of Pacific Coast harbors; denounces the Republican State platform as deceptive and untrue, and pledges every effort for the success of the Democratic ticket.

INAUGURAL ADDRESS OF PRESIDENT HARRISON.

MARCH 4, 1889.

There is no Constitutional or legal requirement that the President shall take the oath of office in the presence of the people; but there is so manifest an appropriateness in the public induction to office of the Chief Executive Officer of the Nation that from the beginning of the Government the people, to whose service the official oath consecrates the officer, have been called to witness the solemn ceremonial. The oath, taken in the presence of the people, becomes a mutual covenant; the officer covenants to serve the whole body of the people by a faithful execution of the laws, so that they may be the unflinching defence and security of those who observe them, and that neither wealth, station nor the power of combinations shall be able to evade their just penalties or to wrest them from a beneficent public purpose to serve the ends of cruelty or selfishness.

My promise is spoken; yours unspoken, but not the less real and solemn. The people of every State have here their representatives. Surely I do not misinterpret the spirit of the occasion when I assume that the whole body of the people covenant with me and with each other today to support and defend the Constitution and the union of the States, to yield willing obedience to all the laws and each to every other citizen his equal civil and political rights. Entering thus solemnly into covenant with each other, we may reverently invoke and confidently expect the favor and help of Almighty God—that He will give to me wisdom, strength and fidelity, and to our people a spirit of fraternity and a love of righteousness and peace.

This occasion derives peculiar interest from the fact that the Presidential term which begins this day is the twenty-sixth under our Constitution. The first inau-

guration of President Washington took place in New-York, where Congress was then sitting, on the 30th day of April, 1789, having been deferred by reason of delays attending the organization of the Congress and the canvass of the electoral vote. Our people have already worthily observed the centennials of the Declaration of Independence, of the battle of Yorktown, and of the adoption of the Constitution; and will shortly celebrate in New-York the institution of the second great department of our constitutional scheme of Government. When the centennial of the institution of the judicial department, by the organization of the Supreme Court, shall have been suitably observed, as I trust it will be, our Nation will have fully entered its second century.

I will not attempt to note the marvellous and, in great part, happy contrast between our country as it steps over the threshold into its second century of organized existence under the Constitution and that weak but wisely ordered young nation that looked undauntedly down the first century when all its years stretched out before it.

Our people will not fail at this time to recall the incidents which accompanied the institution of government under the Constitution, or to find inspiration and guidance in the teachings and example of Washington and his great associates, and hope and courage in the contrast which thirty-eight populous and prosperous States offer to the thirteen States, weak in everything except courage and the love of liberty, that then fringed our Atlantic seaboard.

The Territory of Dakota has now a population greater than that of any of the original States (except Virginia), and greater than the aggregate of five of the smaller States in 1790. The centre of population when our National Capital was

located was east of Baltimore, and it was argued by many well-informed persons that it would move eastward rather than westward; yet in 1880 it was found to be near Cincinnati, and the new census about to be taken will show another stride to the westward. That which was the body has come to be only the rich fringe of the Nation's robe. But our growth has not been limited to territory, population and aggregate wealth, marvellous as it has been in each of those directions. The masses of our people are better fed, clothed and housed than their fathers were. The facilities for popular education have been vastly enlarged and more generally diffused.

The virtues of courage and patriotism have given recent proof of their continued presence and increasing power in the hearts and over the lives of our people. The influences of religion have been multiplied and strengthened. The sweet offices of charity have greatly increased. The virtue of temperance is held in higher estimation. We have not attained an ideal condition. Not all of our people are happy and prosperous; not all of them are virtuous and law-abiding. But, on the whole, the opportunities offered to the individual to secure the comforts of life are better than are found elsewhere and largely better than they were here 100 years ago.

The surrender of a large measure of sovereignty to the General Government, effected by the adoption of the Constitution, was not accomplished until the suggestions of reason were strongly reinforced by the more imperative voice of experience. The divergent interests of peace speedily demanded a "more perfect union." The merchant, the shipmaster and the manufacturer discovered and disclosed to our statesmen and to the people that commercial emancipation must be added to the political freedom which had been so bravely won. The commercial policy of the mother country had not relaxed any of its hard and oppressive features. To hold in check the development of our commercial marine, to prevent or retard the establishment and growth of manufactures in the States, and so to secure the American market for their shops, and the carrying trade for their ships, was the policy of European statesmen, and was pursued with the most selfish vigor.

Petitions poured in upon Congress urging the imposition of discriminating duties that should encourage the production of needed things at home. The patriotism of the people, which no longer found a field of exercise in war, was energetically directed to the duty of equipping the young Republic for the defence of its independence by making its people self-dependent. Societies for the promotion of home manufactures and for encouraging the use of domestics in the dress of the people were organized in many of the States. The revival at the end of the century of the same patriotic interest in the preservation and development of domestic industries, and the defence of our working people against injurious foreign

competition, is an incident worthy of attention. It is not a departure, but a return that we have witnessed. The protective policy had then its opponents. The argument was made, as now, that its benefits inured to particular classes or sections.

If the question became in any sense or at any time sectional, it was only because slavery existed in some of the States. But for this there was no reason why the cotton-producing States should not have led or walked abreast with the New-England States in the production of cotton fabrics. There was this reason only why the States that divide with Pennsylvania the mineral treasures of the great southeastern and central mountain ranges should have been so tardy in bringing to the smelting furnaces and to the mill the coal and iron from their near opposing hills. Mill fires were lighted at the funeral pile of slavery. The Emancipation Proclamation was heard in the depths of the earth, as well as in the sky; men were made free, and material things became our better servants.

The sectional element has happily been eliminated from the tariff discussion. We have no longer States that are necessarily only planting States. None are excluded from achieving that diversification of pursuit among the people which brings wealth and contentment. The cotton plantation will not be less valuable when the product is spun in the county town by operatives whose necessities call for diversified crops and create a home demand for garden and agricultural products. Every new mine, furnace, and factory is an extension of the productive capacity of the State more real and valuable than added territory.

Shall the prejudices and paralysis of slavery continue to hang upon the skirts of progress? How long will those who rejoice that slavery no longer exists cherish or tolerate the incapacities it put upon their communities? I look hopefully to the continuance of our protective system and to the consequent development of manufacturing and mining enterprises in the States hitherto wholly given to agriculture, as a potent influence in the perfect unification of our people. The men who have invested their capital in these enterprises, the farmers who have felt the benefit of their neighborhood, and the men who work in shop or field will not fail to find and to defend a community of interest.

Is it not quite possible that the farmers and the promoters of the great mining and manufacturing enterprises which have recently been established in the South may yet find that the free ballot of the workman, without distinction of race, is needed for their defence as well as for his own? I do not doubt that if those men in the South who now accept the tariff views of Clay and the Constitutional expositions of Webster would courageously avow and defend their real convictions, they would not find it difficult, by friendly instruction and co-operation, to make the black man their efficient and safe ally, not only in establishing correct principles in our National administration, but in preserving for their local

communities the benefits of social order and economical and honest government. At least until the good offices of kindness and education have been fairly tried, the contrary conclusion cannot be plausibly urged.

I have altogether rejected the suggestion of a special Executive policy for any section of our country. It is the duty of the Executive to administer and enforce, in the methods and by the instrumentalities pointed out and provided by the Constitution, all the laws enacted by Congress. These laws are general, and their administration should be uniform and equal. As a citizen may not elect what laws he will obey, neither may the Executive elect which he will enforce. The duty to obey and to execute embraces the Constitution in its entirety, and the whole code of laws enacted under it. The evil example of permitting individuals, corporations, or communities to nullify the laws because they cross some selfish or local interest or prejudices is full of danger, not only to the Nation at large, but much more to those who use this pernicious expedient to escape their just obligations or to obtain an unjust advantage over others. They will presently themselves be compelled to appeal to the law for protection, and those who would use the law as a defence must not deny that use of it to others.

If our great corporations would more scrupulously observe their legal limitations and duties, they would have less cause to complain of the unlawful limitations of their rights or of violent interference with their operations. The community that by concert, open or secret, among its citizens denies to a portion of its members their plain rights under the law, has severed the only safe bond of social order and prosperity. The evil works, from a bad centre, both ways. It demoralizes those who practise it and destroys the faith of those who suffer by it in the efficiency of the law as a safe protector. The man in whose breast that faith has been darkened is naturally the subject of dangerous and uncanny suggestions. Those who use unlawful methods, if moved by no higher motive than the selfishness that prompted them, may well stop and inquire what is to be the end of this.

An unlawful expedient can not become a permanent condition of government. If the educated and influential classes in a community either practise or connive at the systematic violation of laws that seem to them to cross their convenience, what can they expect when the lesson that convenience or a supposed class interest is a sufficient cause for lawlessness has been well learned by the ignorant classes? A community where law is the rule of conduct, and where courts, not mobs, execute its penalties, is the only attractive field for business investments and honest labor.

Our naturalization laws should be so amended as to make the inquiry into the character and good disposition of persons applying for citizenship more careful and searching. Our existing laws have been in their administration an unimpressive and often an unintelligible form. We accept the man as a citizen without any knowledge of his fitness, and he assumes

the duties of citizenship without any knowledge as to what they are. The privileges of American citizenship are so great and its duties so grave that we may well insist upon a good knowledge of every person applying for citizenship and a good knowledge by him of our institutions. We should not cease to be hospitable to immigration, but we should cease to be careless as to the character of it. There are men of all races, even the best, whose coming is necessarily a burden upon our public revenues or a threat to social order. These should be identified and excluded.

We have happily maintained a policy of avoiding all interference with European affairs. We have been only interested spectators of their contentions in diplomacy and war, ready to use our friendly offices to promote peace, but never obtruding our advice and never attempting unfairly to coin the distresses of other powers into commercial advantage to ourselves. We have a just right to expect that our European policy will be the American policy of European courts. It is so manifestly incompatible with those precautions for our peace and safety which all the great powers habitually observe and enforce in matters affecting them that a shorter water way between our eastern and western seaboard should be dominated by any European government that we may confidently expect that such a purpose will not be entertained by any friendly power.

We shall in the future, as in the past, use every endeavor to maintain and enlarge our friendly relations with all the great powers, but they will not expect us to look kindly upon any project that would leave us subject to the dangers of a hostile observation or environment. We have not sought to dominate or to absorb any of our weaker neighbors, but rather to aid and encourage them to establish free and stable governments, resting upon the consent of their own people. We have a clear right to expect, therefore, that no European government will seek to establish colonial dependencies upon the territory of these independent American States. That which a sense of justice restrains us from seeking they may be reasonably expected willingly to forego.

It must not be assumed, however, that our interests are so exclusively American that our entire inattention to any events that may transpire elsewhere can be taken for granted. Our citizens, domiciled for purposes of trade in all countries and in many of the islands of the sea, demand and will have our adequate care in their personal and commercial rights. The necessities of our Navy require convenient coaling stations and dock and harbor privileges. These and other trading privileges we will feel free to obtain only by means that do not in any degree partake of coercion, however feeble the government from which we ask such concessions. But having fairly obtained them by methods and for purposes entirely consistent with the most friendly

disposition toward all other powers, our consent will be necessary to any modification or impairment of the collection.

We shall neither fail to respect the flag of any friendly nation or the just rights of its citizens, nor to exact the like treatment for our own. Calmness, justice and consideration should characterize our diplomacy. The offices of an intelligent diplomacy or of friendly arbitration in proper cases should be adequate to the peaceful adjustment of all international difficulties. By such methods we will make our contribution to the world's peace, which no nation values more highly, and avoid the opprobrium which must fall upon the nation that ruthlessly breaks it.

The duty devolved by law upon the President to nominate and, by and with the advice and consent of the Senate, to appoint all public officers whose appointment is not otherwise provided for in the Constitution or by act of Congress, has become very burdensome and its wise and efficient discharge full of difficulty. The civil list is so large that a personal knowledge of any large number of the applicants is impossible. The President must rely upon the representations of others, and these are often made inconsiderately and without any just sense of responsibility. I have a right, I think, to insist that those who volunteer or are invited to give advice as to appointments shall exercise consideration and fidelity. A high sense of duty and an ambition to improve the service should characterize all public officers.

There are many ways in which the convenience and comfort of those who have business with our public offices may be promoted by a thoughtful and obliging officer, and I shall expect those whom I may appoint to justify their selection by a conspicuous efficiency in the discharge of their duties. Honorable party service will certainly not be esteemed by me a disqualification for public office, but it will in no case be allowed to serve as a shield of official negligence, incompetency, or delinquency. It is entirely creditable to seek public office by proper methods and with proper motives, and all applicants will be treated with consideration. But I shall need, and the heads of Departments will need, time for inquiry and deliberation. Persistent importunity will not, therefore, be the best support of an application for office. Heads of Departments, bureaus and all other public officers having any duty connected therewith will be expected to enforce the Civil Service law fully and without evasion. Beyond this obvious duty I hope to do something more to advance the reform of the Civil Service. The ideal, or even my own ideal, I shall probably not attain. Retrospect will be a safer basis of judgment than promises. We shall not, however, I am sure, be able to put our Civil Service upon a non-partisan basis until we have secured an incumbency that fair-minded men of the opposition will approve for impartiality and integrity. As the number of such in the civil list is increased removals from office will diminish.

While a Treasury surplus is not the greatest evil, it is a serious evil. Our revenue should be ample to meet the ordinary annual demands upon our Treasury, with a sufficient margin for those extraordinary but scarcely less imperative demands which arise now and then. Expenditure should always be made with economy and only upon public necessity. Wastefulness, profligacy, or favoritism in public expenditures is criminal. But there is nothing in the condition of our country or of our people to suggest that anything presently necessary to the public prosperity, security or honor should be unduly postponed.

It will be the duty of Congress wisely to forecast and estimate these extraordinary demands, and, having added them to our ordinary expenditures, to so adjust our revenue laws that no considerable annual surplus will remain. We will fortunately be able to apply to the redemption of the public debt any small and unforeseen excess of revenue. This is better than to reduce our income below our necessary expenditures, with the resulting choice between another change of our revenue laws and an increase of the public debt. It is quite possible, I am sure, to effect the necessary reduction in our revenues without breaking down our protective tariff or seriously injuring any domestic industry.

The construction of a sufficient number of modern war ships and of their necessary armament should progress as rapidly as is consistent with care and perfection in plans and workmanship. The spirit, courage and skill of our naval officers and seamen have many times in our history given to weak ships and inefficient guns a rating greatly beyond that of the naval list. That they will again do so upon occasion I do not doubt; but they ought not, by premeditation or neglect, to be left to the risks and exigencies of an unequal combat. We should encourage the establishment of American steamship lines. The exchanges of commerce demand stated, reliable and rapid means of communication, and until these are provided the development of our trade with the States lying south of us is impossible.

Our pension laws should give more adequate and discriminating relief to the Union soldiers and sailors, and to their widows and orphans. Such occasions as this should remind us that we owe everything to their valor and sacrifice.

It is a subject of congratulation that there is a near prospect of the admission into the Union of the Dakotas and Montana and Washington Territories. This act of justice has been unreasonably delayed in the case of some of them. The people who have settled these Territories are intelligent, enterprising and patriotic, and the accession of these new States will add strength to the nation. It is due to the settlers in the Territories who have availed themselves of the invitations of our land laws to make homes upon the public domain that their titles should be speedily adjusted and their honest entries confirmed by patent.

It is very gratifying to observe the general interest now being manifested in the reform of our election laws. Those who have been for years calling attention

to the pressing necessity of throwing about the ballot-box and about the elector further safeguards in order that our elections might not only be free and pure, but might clearly appear to be so, will welcome the accession of any who did not so soon discover the need of reform. The National Congress has not as yet taken control of elections in that case over which the Constitution gives it jurisdiction, but has accepted and adopted the election laws of the several States, provided penalties for their violation and a method of supervision. Only the inefficiency of the State laws or an unfair or partisan administration of them could suggest a departure from this policy.

It was clearly, however, in the contemplation of the framers of the Constitution that such an exigency might arise, and provision was wisely made for it. The freedom of the ballot is a condition of our National life, and no power vested in Congress or in the Executive to secure or perpetuate it should remain unused upon occasion. The people of all the Congressional districts have an equal interest that the election of each shall truly express the views and wishes of a majority of the qualified electors residing within it. The results of such elections are not local, and the insistence of electors residing in other districts that they shall be pure and free does not savor at all of impertinence.

If, in any of the States, the public security is thought to be threatened by ignorance among the electors, the obvious remedy is education. The sympathy and help of our people will not be withheld from any community struggling with special embarrassments or difficulties connected with the suffrage if the remedies proposed proceed upon lawful lines and are promoted by just and honorable methods. How shall those who practise election frauds redress that respect for the sanctity of the ballot which is the first condition and obligation of good citizenship? The man who has come to regard the ballot-box as a juggler's hat has renounced his allegiance.

Let us exalt patriotism and moderate our party contentions. Let those who would die for the flag on the field of battle give a better proof of their patriotism and a higher glory to their country by pro-

moting fraternity and justice. A party success that is achieved by unfair methods or by practices that partake of revolution is hurtful and evanescent, even from a party standpoint. We should hold our differing opinions in mutual respect, and having submitted them to the arbitrament of the ballot, should accept an adverse judgment with the same respect that we would have demanded of our opponents if the decision had been in our favor.

No other people have a government more worthy of their respect and love, or a land so magnificent in extent, so pleasant to look upon, and so full of generous suggestion to enterprise and labor. God has placed upon our head a diadem, and has laid at our feet power and wealth beyond definition or calculation. But we must not forget that we take these gifts upon the condition that justice and mercy shall hold the reins of power, and that the upward avenues of hope shall be free to all the people.

I do not mistrust the future. Dangers have been in frequent ambush along our path, but we have uncovered and vanquished them all. Passion has swept some of our communities, but only to give us a new demonstration that the great body of our people are stable, patriotic and law-abiding. No political party can long pursue advantage at the expense of public honor or by rude and indecent methods without protest and fatal disaffection in its own body. The peaceful agencies of commerce are more fully revealing the necessary unity of all our communities, and the increasing intercourse of our people is promoting mutual respect. We shall find unalloyed pleasure in the revelation which our next census will make of the swift development of the great resources of some of the States. Each State will bring its generous contribution to the great aggregate of the Nation's increase. And when the harvests from the fields, the cattle from the hills, and the ores of the earth shall have been weighed, counted and valued, we will turn from them all to crown with the highest honor the State that has most promoted education, virtue, justice and patriotism among its people.

POSTAGE RATES.

THE CLASSES OF MAIL MATTER.

Domestic mail matter is divided into four classes, as follows:

First Class—Letters, postal cards, and matter wholly or partly in writing, whether sealed or unsealed (except manuscript copy accompanying proof-sheets or corrected proof-sheets of the same), and all matter sealed or otherwise closed against inspection.

Rate of Postage—Two cents per ounce or fraction thereof. Postal cards, one cent each. On "drop" letters, two cents per ounce or fraction thereof, when mailed at letter-carrier's office; and one cent per ounce or fraction thereof at other offices.

Second Class—Newspapers and publications issued at stated intervals as often as four times a year, bearing a date of issue and numbered consecutively, issued from a known office of publication, and formed of printed sheets, without board, cloth, leather or other substantial binding. Such publications must be originated and published for the dissemination of information of a public character, or devoted to literature, the sciences, art, or some special industry. They must have a legitimate list of subscribers, and must not be designed primarily for advertising purposes, or for free circulation at nominal rates.

Rate of Postage—One cent for each four ounces or fraction thereof.

Third Class—Books, periodicals and matter wholly in print (not included in second class), proof-sheets, corrected proof-sheets and manuscript copy accompanying the same.

Rate of Postage—One cent for each two ounces or fraction thereof.

Fourth Class—Merchandise, namely, all matter not embraced in the other three classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, and not above the weight provided by law.

Rate of Postage—One cent per ounce or fraction thereof, but on seeds, cuttings, roots, scions and plants, one cent for each two ounces or fraction thereof.

THE LIMIT OF WEIGHT.

A package must not exceed four pounds in weight, unless it be a single book.

PAYMENT OF POSTAGE.

On first-class matter the postage should be fully prepaid, but if two cents in stamps be affixed, the matter will be forwarded and remainder due collected of addressee before delivery.

On Second-Class Matter—The postage must be fully prepaid.

On Third-Class Matter—The postage must be fully prepaid.

On Fourth-Class Matter—The postage must be fully prepaid.

WHAT MAY BE WRITTEN OR PRINTED ON MAIL MATTER.

Second Class—Name and address of persons to whom the matter is to be sent; index-figures of subscription book printed

or written; printed title of publication, printed or written name or address, without advertisement of publisher or sender; written or printed words or figures, or both, indicating date on which subscription ends; correction of typographical errors, a mark, except by written or printed words to designate a word or passage to which it is desired, to call attention; the words, "sample copy"; publishers' or news agents' bills, receipts, and orders for subscription, but the same shall convey no other information than the name, place of publication, subscription price, and amount of subscription due. The number of copies enclosed may be indicated on wrapper or face of package.

Third Class—Sender's name and address, with the word "from"; marks other than by written or printed words to call attention to word or passage; correction of typographical errors; on the blank leaves or cover of any book may be placed a simple manuscript dedication or inscription not like a personal correspondence; upon the address side of wrapper, envelope, tag or label must be left space sufficient for legible address and necessary stamps.

Fourth Class—With matter of this kind may be enclosed any mailable third-class matter. On wrapper, cover, tag or label may be written name and address of sender with word "from"; marks, numbers, names or letters for purposes of description, or same may be printed; any printed matter not in nature of a personal correspondence. On address side must be left space sufficient for legible address and necessary stamps.

THE REGISTRY SYSTEM.

All mail matter, including drop letters, may be registered; but not matter addressed to fictitious names, initials, or box numbers, or bearing vague and indefinite addresses.

The registry fee is ten cents in addition to postage. It must be prepaid by stamps affixed.

ELECTION OF U. S. SENATORS.

1889, Dec. 30.—Hon. Willbur F. Sanders was chosen one of the Senators. The vote was: Senate—Sanders 7, B. Platt Carpenter 1. House—Sanders 38.

1890, Jan. 2.—Hon. Thomas C. Power was chosen second Senator, in joint convention. He had 35 votes, 3 scattering.

The Democratic members of the Senate did not participate in these elections, but absented themselves from the sessions. They met in joint convention with the Democratic House, and participated with them in ballots for Senators. W. A. Clarke and Martin Maginnis were the nominees of the Democratic caucus, and, January 7, they received 37 votes and were declared elected.

The Prohibitory Amendment proposed to prohibit the manufacture, sale, or keeping for sale, of intoxicating liquor, to be used as a beverage. The Suffrage Amendment proposed to reduce the required residence of electors in an election precinct from sixty days to thirty days, and to strike out the clause requiring the payment, within two years, of a State or County tax assessed at least two months before the election.

The vote for Governor was not declared by the Joint Assembly, and is yet undecided.

For unofficial vote by counties, see p. 92, ALMANAC FOR 1889.

The Legislature counted the vote and declared the result on all the State officers voted for in November, 1888, except Governor, for which office it refused, by a partisan vote, to count the vote and declare the result. Instead of that it appointed a joint committee of five (two Republican Senators and three Democratic Representatives) to go over the State and examine witnesses as to irregularities in the election. The returns sent from the commissioners of the counties to the Secretary of State, and by him delivered to the Speaker of the House of Delegates, give Goff (Rep.) 78,714 votes and Fleming (Dem.) 78,604, as is admitted in the Fleming notice of contest. Fleming charges errors at the election, which, if corrected, would make the result: Goff, 77,672; Fleming, 78,623. Goff, in his counter-notice, charges errors which, if corrected, would make the result stand: Goff, 78,743 (or 78,938 if the votes at Lewisburg and Coalburg be counted as claimed by Fleming), and Fleming 76,351. The committee is to report at a called session of the Legislature. The question arose prior to March 4, 1889, as to the occupancy of the office after the expiration of the term of E. Willis Wilson, elected in November, 1884. On that day, March 4, 1889, Nathan Goff, Republican candidate, took the oath of office, as elected by the lawful returns forwarded from the offices of the clerks of the counties, and claimed the office. President of the Senate Robert S. Carr also took the oath of office, claiming it by virtue of the operation of the Constitution, no one having been declared by the Legislature as elected. The Supreme Court held that as the Legislature had

the exclusive right to declare a result, and as such a declaration was essential to the right to exercise the office, the Court could not interfere. Ten days later (March 14) the Court held that Carr had no ground upon which to take the office; and that the Governor last elected, though ineligible for re-election, could continue to discharge the duties of the office until a legal declaration shall have been made.

The two houses passed a resolution that it is inexpedient to consider the proposition made in relation to the so-called West Virginia certificates of debt. The proposition was from New-York holders of Virginia deferred certificates, amounting to \$8,000,000, which they offered to sell to West Virginia for \$2,500,000 of West Virginia bonds, in compromise of the supposed share of West Virginia in the debt of Virginia.

The returns of the election for Representatives in the 11st Congress, upon which the Governor signed certificates of election in the 1st, 11th and 14th Districts, could not be procured in time for last year's Almanac. They are here presented, as gathered from the notices of contest now pending in the House of Representatives, and are compared with the like vote in 1886:

Mr. Atkinson claims that after correcting the returns as set forth, he has a plurality. Mr. Pendleton claims that the true returns should be: Atkinson, 18,618; Pendleton, 19,280.

Mr. McGinnis claims the true figures to be: McGinnis, 18,099; Alderson, 18,066. The explanation of the difference of vote is that several thousand votes in Pocahontas and Kanawha Counties were thrown out by county commissioners and were not certified to the Governor.

POLITICAL MISCELLANY.

ARIZONA TERRITORY—There are 8,000 Mormons in it. Governor Wolfley states that the first legislative act approved by his predecessor repealed the act disfranchising those who practised, taught or encouraged polygamy. He urges Congress to annul the repealing act and re-establish the former law.

CONNECTICUT—The Legislature elected the Republican candidates for State offices, 159 to 95. The first Secret Ballot law passed by the Legislature was vetoed as cumbersome, burdensome, expensive and inharmonious with existing laws. The House overruled the veto; the Senate sustained it. Subsequently a compromise bill passed both houses unanimously, and was approved. The law provides for an official blank ballot, furnished by the State at cost to such persons as desire to buy it. This is duly marked "official ballot" on the back, and no other ballots can be put in the box. There is opportunity for writing names on the ballots. Booths are provided for every 150 voters, in which they can retire secure from observation and prepare their ballots, and three minutes are allowed each voter. Then the voter enters an envelope booth, where he gets an envelope from the State, and in this envelope he places his ballot, enters the room where the ballot-box is, and deposits it in the ballot-box, sealed, in the presence only of the officials who are in charge of the box. He is then required to pass out through another way.

An act passed that no person shall be disqualified from being assistant town clerk, registrar of births, marriages and deaths, or of assistant registrar of births, marriages and deaths, by reason of sex.

DELAWARE—The House passed a bill to call a Constitutional Convention—yeas 15 (13 Republicans and 2 Democrats), nays 4 (1 Republican and 1 Democrat absent). The Senate defeated the bill. A Local Option bill passed the House; failed in the Senate by a vote of 4 to 5. A High License act makes license \$300 in Wilmington, Dover and Newcastle, and \$200 elsewhere; wholesale licenses, \$100, and druggists', \$20, to sell only on physicians' prescription, one sale to a prescription. Amendments to Assessment and Collection laws passed the House; failed in the Senate. The Australian Ballot bill was defeated in the House, Republicans except one against it, Democrats except one for it.

GEORGIA—Widows of Confederate soldiers who died in battle or from wounds received in the service or from hardships incident thereto, and not since married, to be pensioned if married to the soldiers at the time of service.

IDAHO TERRITORY—The vote on adopting a State Constitution was: Yeas 12,397, nays 1,645. Population, 113,777.

ILLINOIS—Submission of a Prohibitory Amendment failed.

INDIANA—The Supreme Court adjudged unconstitutional the bill to deprive Indianapolis and Evansville of the power to control their own affairs—"the right of local self-government being a part of the Constitutional Law of Indiana." An Australian Ballot bill was passed. The Supreme Court decided that a municipal corporation has the power to compel liquor-sellers engaging in the business within two miles of the corporate limits to pay a license fee. The court holds that the business requires restraint because it is harmful to society, and that the fee is exacted for the purpose of restricting the business. The Supreme Court has sustained the High License law passed by the Legislature last winter and decided that a license is not a contract.

MAINE—Woman Suffrage defeated in the House, 40 to 90. The Maine House, by a vote of 84 to 48, passed a bill providing for the license of drug stores to sell liquor in quantities not exceeding a quart, on a physician's prescription.

MASSACHUSETTS—Woman Suffrage defeated in the House, 78 to 127—the twenty-first defeat in that State. Woman Suffrage on license questions postponed to the next General Court, 95 to 54. The submission of the Prohibitory Amendment passed the House—yeas 161 (Republicans 160, Independent 1), nays 69 (Democrats 56, Republicans 13), not voting 8 (Republicans 6, Democrats 2). In the Senate not a Democrat voted in the affirmative.

MICHIGAN—A Local Option law passed, and a Secret Ballot act. Tickets are to be printed by the State, of uniform size, color and texture. A railing and gate in front of each polling place, with a gatekeeper who shall admit but one voter at a time, are provided for in the law, and also the construction of booths in which the voter may prepare his ballot in secrecy. Woman Suffrage was defeated in the House.

MINNESOTA—The House defeated the submission of a Prohibitory Amendment. An Australian Ballot system was established. A law passed providing that whoever becomes intoxicated by voluntarily drinking intoxicating liquors shall be deemed guilty of the crime of drunkenness, and upon conviction thereof shall be punished as follows: For the first offence, a fine of not less than \$10 nor more than \$40, or by imprisonment for not less than ten or more than forty days; for the second offence, imprisonment for not less than thirty nor more than sixty days, or by a fine of not less than \$20 nor more than \$50; for the third and all subsequent offences, by imprisonment for not less than sixty days nor more than ninety days.

MISSOURI—The House rejected the Senate bill to raise the minimum license fee from \$500 to \$2,500.

MONTANA—The Australian Ballot system is part of the constitution of the new State.

NEBRASKA—The question of License or Prohibition is to be submitted in November, 1890.

NEW-HAMPSHIRE—The Legislature elected the Republican candidates for State offices (there being no election by the people), 168 to 115.

NEW-JERSEY—The Sunset Election law was repealed; also the Local Option Act of last year. In its place is a law which re-enacts the high-license features of last winter's act, the city licenses being \$250 and the rural licenses \$150 and \$100. Those who sell by the quart are required to take out licenses, which has not been the case hitherto. If a person violates any of the laws against selling liquor, a complaint may be made by three citizens, and if a conviction is secured before the court or board granting the license, it is to be forfeited, and a second conviction makes the licensee ineligible to hold a license forever. If one-fifth of the voters of any township apply to the courts to have the license fee increased in that township, naming a sum they desire, the court is to order an election on the amount to be fixed. Retail sales in grocery stores are forbidden, and there are some minor provisions of similar purport. The county option provisions of last winter's act are repealed, and the elections which resulted against license in five counties are declared void. The vote in the House was 32 (Dem. 31, Rep. 1) to 27 Republicans; in the Senate 11 yeas (Democrats), 10 nays (Republican). The Chief Justice (Beasley) held objection to a liquor license in Hunterdon County having subsequently been made on the ground that Hunterdon County had last year voted that no license should be granted hereafter, that, "by the repeal of last year's act, the prohibition against granting licenses has been done away with, and the power and duty to grant licenses as of old has been restored." The Chief Justice fixed the license at from \$100 to \$400. The Personal Registration Act for Newark and Jersey City was repealed. The House passed a Ballot Reform bill; it failed in the Senate. A Legislative Redistricting act was passed by a party vote in each House.

NEW-YORK—Governor Hill vetoed the Excise Commission's bill and the Vender Liquor Tax bill; both passed the Legislature, substantially by Republican votes. He also vetoed the Saxton Ballot Reform bill, similarly passed. He also vetoed the New-York City Police and Park Commission bills. He signed Senator Fassett's Prison Labor bill.

NORTH CAROLINA—A new election law has been passed, modelled on that of South Carolina. The separate ballot boxes are to be labelled, and voters are required to approach the poll one at a time and place their several ballots in the proper boxes. Tickets found in the wrong boxes are not counted.

OHIO—The Supreme Court sustained the Township Local Option Law.

PENNSYLVANIA—The Constitutional Amendment to abolish the poll tax passed the Senate 37 to 8, the House 142 to 1.

The Prohibitory Amendment resolution passed the Senate, 32 (of whom 2 were Democrats) to 2 (both Republicans), other Democrats not voting; the House, 132 (7 Democrats) to 54 (9 Republicans).

RHODE ISLAND—The Legislature chose the Republican candidates for State offices, there having been no election by the people, except for Attorney-General. The bill to resubmit the Prohibitory Amendment passed the House, 41 to 25, the Senate, 22 to 15. A Ballot Reform bill passed the House, 34 to 31, the Senate, 25 to 5, to take effect June 30, 1889. After the defeat of Prohibition, the Legislature passed a License law, of which these are the main features:

Town councils in the towns and license commissioners in the cities may at once issue licenses in their districts to expire on May 1 next, the fees to go three-fourths to the cities or towns and one-fourth to the State. The Mayors are to appoint three commissioners to serve until April 1. The Mayors chosen this fall are to appoint in March, 1890, commissioners to serve one, two and three years. The Mayors may remove the commissioners for cause if 15 per cent (in towns 20 per cent) of the number of voters at the election for general officers next previous shall petition therefor. A vote may be taken each spring on the question of granting licenses in cities and towns. Whichever way the vote goes, so it shall stand until overturned at some subsequent annual election. The wholesalers' fees are not less than \$500 nor more than \$1,000. The retail licenses for Providence are \$400; for the other cities, \$350; for towns between 6,000 and 18,000 inhabitants, \$300; for smaller towns, from \$200 to \$300. Wholesalers may not sell to unlicensed dealers, nor go bail for violators of the law. The penalties for violations of the law range from \$20 and costs and ten days in jail to \$100 and costs and six months in jail. Screens must be removed on Sundays. There are no restrictions as to number or location of licensed places, except that a majority of the occupants and owners of the property within 200 feet of a proposed saloon may prevent the issue of a license to such saloon.

SOUTH CAROLINA—The late Legislature repealed the Civil Rights Act, passed fifteen years ago, prohibiting in railroads, hotels and theatres, discrimination between persons on account of race. A high-license bill, after passing both Houses, was reconsidered and defeated. A bill requiring railroads to furnish separate and equal accommodations for passengers of both races was defeated.

TENNESSEE—At the vote on the Prohibitory Amendment in 1887, East Tennessee gave a majority of 12,769 for it; the other parts of the State, 40,462 against.

A new registration act was passed, applicable to districts polling 500 votes or more, and an Australian ballot system act, applicable to all elections in cities of 10,000 or more. The "Hermitage" has been set aside as a home for indigent or disabled Confederate soldiers.

SPORTS ON LAND AND WATER.

THE TURF.

The racing season of 1889 began with the year and continued without intermission for twelve months. Never before in the history of the American turf had the sport been conducted on a scale so extensive. It is estimated that the horses in training numbered not less than 3,200, valued at some \$7,500,000. The champion of the year, in the two-year-old division, was Theodore Winters's chestnut colt El Rio Rey, by Norfolk—Marian. Capable judges pronounced him twenty pounds better than any other youngster of the season. Grand in proportions, imperial in stride, he won his races with an effortless ease that stamped him as one of the greatest colts of the century. He retired unbeaten. In the fall his owner rejected an offer of \$30,000 for him, soon after which he was reported to have died of pneumonia. He recovered, however, after a serious illness, and at the close of the year was apparently sound in wind and limb. The champion of the three-year-old division was J. B. Haggin's chestnut colt Salvator, by Prince Charlie—Salina, who was, however, rather hard pressed by S. S. Brown's brown filly Senorita, by Prince Charlie—Gondola, and by D. T. Pulsifer's bay colt Tenny, by Rayon d'Or—Belle of Maywood. August Belmont's bay gelding Raceland, by Billet—Calomel, was easily the chief of the four-year-olds, while among the all-aged class Dwyer Brothers' brown horse Kingston, by Spendthrift—Kapanga, reigned supreme, his closest competitor being J. B. Haggin's superb little bay mare Firenze, by Glenelg—Florida.

The Bard, the best horse of his day, broke down while undergoing a preparation for the Suburban, and was retired to the stud. He did not start in 1889.

The season witnessed the retirement of James McLaughlin, America's foremost jockey, inability to reduce to riding weight causing him to leave the saddle and take up the occupation of trainer. Pierre Lorillard engaging his services for the Rancocas establishment at Jobstown, N. J. With McLaughlin out of the way, Hamilton went to the front and made himself the most successful jockey of the year. Garrison rode less than in previous years, having become a horse owner, and, to his cost, a plunger. At the end of the year he was said to be without funds, the report gaining color from the institution of a suit against him by the father and mother of his wife, who were his partners in racing. Garrison suffered much in the public estimation by the result of the race for the Oriental Handicap at Gravesend in the fall, his mount, Raceland, failing to get a place, for which his employer, August Belmont, censured him severely, even charging him with not riding to win. When Raceland next appeared, he was ridden by McLaughlin, the "Snapper" being required to stand down as a punishment, but soon afterward a peace was patched up and Garrison rode many excellent races for Mr. Belmont before the season closed.

Two of the oldest and most honored racing associations in the United States

passed out of existence in 1889—the American Jockey Club and the Maryland Jockey Club. The former, the pioneer of racing in the North, and the recognized turf authority in this country for twenty-four years, was driven to disorganization by disastrous competition with a young and lusty society endowed with limitless capital—the New-York Jockey Club, whose racing grounds at Westchester, opened on August 20, cost the builder, John A. Morris, of the Louisiana Lottery, nearly \$2,000,000. When the American Jockey Club decided in December to end its useful and honorable career, and say farewell to Jerome Park, most of its members announced their intention of joining the New-York Jockey Club, Mr. Morris having invited all to enter free. The Maryland Jockey Club died of general debility, aggravated by the suppleness of the Baltimoreans, who had long since ceased to regard Pimlico as indispensable to the eternal salvation of the Monumental City.

Another death was that of the Rockaway Steeplechase Association, and with it died for a time steeplechasing in America. The beautiful Cedarhurst course was laid out in streets and town lots before the association had ceased to breathe.

Besides the New-York Jockey Club, with its superb and costly equipment. Its toboggan-slide, mainstretch and its magnificent distances, three other new and promising racing associations appealed for public patronage in 1889—the Linden Park Blood Horse Association, the New-Jersey Jockey Club and the Twin City Jockey Club. On August 17 the last race was run on the old Monmouth Park course, and before the opening of the season of 1890 a new course will have been completed to take its place. On this track, the first of its kind in America, the horses will run the reverse way, or from left to right, instead of from right to left. Another noteworthy change made by the Monmouth Park Association was in its secretary, Captain J. H. Coster resigning and H. G. Crickmore ("Kirk"), for twenty years the turf authority on "The World," succeeding to the office.

The foremost racing associations of the East combined, in October for the collection of forfeits, and Captain J. H. Coster was appointed forfeit clerk, with headquarters in New-York.

NOTEWORTHY OCCURRENCES.

The most exciting finish of the year was that between Kingston, Los Angeles, Badge and Exlie in the Oriental Handicap, Brooklyn, September 17, the four passing the judges' stand short heads apart.

The race for the Lorillard Stakes, Monmouth Park, July 9, caused a quarrel between Philip Dwyer and J. B. Haggin, which resulted in the withdrawal of the latter's horses from the stakes of the Brooklyn Jockey Club. Mr. Dwyer charged Mr. Haggin with un-sportsman-like conduct in starting Kern in that race.

The Ives Pool law in New-York was a dead letter so far as it related to betting in the city. The pool-rooms did a thriving business during the greater part of the season.

A. J. Cassatt sold his stable in October and retired from the turf.

Walter Gratz retired from the turf in August.

The hunter Rosebery, jumping off boards covered with tanbark, cleared bars at a height of 6 feet 11 $\frac{3}{4}$ inches—Chicago, Ill.

Proctor Knott sold by auction at Sheepshead Bay in September to Scogan Brothers for \$17,500.

Come-to-Taw sold in October to Hough Brothers for \$10,500.

Pontiae sold privately to J. O. Donner for \$10,000 and retired to the stud.

Trotting.

Many sensational flights of speed occurred in the course of the season, but Maud S.'s record of 2:08 $\frac{3}{4}$, made in 1885, remained untouched. The nearest approach to it was the 2:10 $\frac{1}{2}$ mile trotted on the Bay District track, San Francisco, Cal., November 9, by Senator Leland Stanford's three-year-old filly Sunol, by Electioneer. A few weeks after this performance Robert Bonner, the owner of Maud S., purchased Sunol for \$45,000. The second best performance of the season was by the three-year-old colt Axtell, by William L. dam Lou, who trotted a mile in 2:12 at Terre Haute, Ind., on October 11, accompanied by Father John, the runner. The price paid for Axtell by his present owners, the proprietors of the Warren Park Farm, Terre Haute, was \$105,000, the largest sum by \$25,000 ever paid for a horse in this country or elsewhere. The young stallion made the season at Warren Park, at the phenomenal fee of \$1,000.

The fastest horses now living, and their time in quarters, are:

Maud S.—32 $\frac{1}{2}$, 32, 31, 33 $\frac{1}{4}$ —2:08 $\frac{3}{4}$.
 Jay-Eye-See—33 $\frac{1}{2}$, 32 $\frac{1}{2}$, 33, 31—2:10.
 Sunol—32, 33, 32 $\frac{1}{2}$, 33 $\frac{1}{4}$ —2:10 $\frac{1}{2}$.
 Guy—32 $\frac{1}{2}$, 33 $\frac{1}{4}$, 32 $\frac{3}{4}$, 32 $\frac{1}{2}$ —2:10 $\frac{3}{4}$.
 St. Julien—32 $\frac{1}{2}$, 32 $\frac{1}{2}$, 33 $\frac{1}{4}$, 33—2:11 $\frac{1}{4}$.
 Axtell—33, 32 $\frac{1}{2}$, 32 $\frac{1}{2}$, 34 $\frac{1}{2}$, 2:12.
 Stamboul—33, 32 $\frac{1}{2}$, 34 $\frac{1}{2}$, 32 $\frac{1}{2}$ —2:12 $\frac{1}{4}$.
 Palo Alto—32 $\frac{1}{2}$, 32 $\frac{3}{4}$, 34, 33 $\frac{1}{2}$ —2:12 $\frac{1}{4}$.

HAPPENINGS OF THE YEAR.

Bell Boy sold by auction for \$51,000 to J. H. Clark and G. H. Hooper, Lexington, Ky., Feb. 21. These gentlemen afterward rejected an offer of \$100,000 for him. (Burned to death on Jan. 11,

1890, at Versailles, Ky., with 35 other valuable horses.)

Stamboul sold by L. J. Rose to W. S. Hobart for \$50,000, California, Feb.

YACHTING AND CANOEING.

The yachting season of 1889 was the most lively one for many years, and was marked by unprecedented additions to the American yacht fleet. The features were the creation of the "forty-footer" fleet, the organization of the New-York Yacht Racing Association, and an abortive attempt by the New-York Yacht Club and the Royal Yacht Squadron to arrange an international race. A chronological list of important yachting occurrences of the year, together with a record of the principal races, is here given.

Jan. 31.—The New-York Yacht Racing Association organizes at the Gilsey House. Delegates were present from the Albany, Columbia, Jersey City, Knickerbocker, Newark, Newark Bay, New-Rochelle, New-Jersey, Sing Sing, Tappan Zee, Williamsburg, Yonkers, Yonkers-Corinthian, Pavonia and Staten Island Yacht Clubs.

Feb. 19.—California yachtsmen, led by J. D. Streckels, establish a \$10,000 international cup. The schooner Lurline challenges.

March 28.—Lord Dunraven challenges for the America's Cup with the Valkyrie.

March 28.—The New-York Yacht Club creates a new Class VII for 40-ft. sloops. A committee was appointed to revise the measurement rules.

March 29.—Dunraven's challenge arrives, with the Valkyrie's description.

March 30.—William F. Weld, Eastern Yacht Club, offers the Weld Challenge Cup for 40-ft. class sloops, to be sailed later.

April 5.—J. D. Smith, Rutherford Stuyvesant, William Krebs, J. R. Busk, Ogden Goelet, J. F. Tams and Gouverneur Kortright are appointed the America's Cup Committee.

April 5.—E. D. Morgan sells the famous sloop Mayflower to R. T. Underhill, of Oyster Bay, to be changed to a schooner.

April 11.—Secretary Oddie, N. Y. Y. C., cables acceptance of Lord Dunraven's challenge.

April 13.—The America's Cup Committee invites entries for trial races.

April 13.—General Charles J. Painie, of Boston, offers a new international cup for 70-footers. He challenges Lord Dunraven.

April 16.—J. Arthur Beebe's 40-footer Verena, the first of the new Burgess forties, was launched at Lawley's.

April 17.—Charles Prince's forty-foot Helen, the first design of A. G. McVey, was launched at Frisbee's, Salem.

April 20.—The Great South Bay Yacht Club was organized at Delmonico's by a number of New-York business men.

May 2.—The Valkyrie is successfully launched at Fay's, Southampton, England. The Bedouin is entered to defend the America's Cup.

May 11.—Secretary Richard Grant, Royal Yacht Squadron, objects to the clause requiring the winning club to hold the America's Cup under the new Deed of Gift.

May 16.—The New-York Yacht Club special meeting. Lord Dunraven writes to Oddie that he understood that no change was to be made from the Thistle-Volunteer rules.

May 20.—The Corinthian Mosquito Fleet was organized at the Sturtevant House.

May 21.—The cutter Valkyrie, first race, beaten by the Deerhound; time allowance.

May 23.—The Valkyrie easily beats the Irex and Yarana from Gravesend to Mouse Light and back in a drift.

May 24.—The Valkyrie wins with a good southeast breeze over the same course.

May 25.—The Valkyrie beats the Irex, Yarana, Deerhound and Amphitrite.

May 28.—The Valkyrie is badly beaten by the Irex and Yarana from Harwich to South End in a stiff lower-sail breeze.

May 30.—Decoration Day.—The Titania defeats the Shamrock in the match for \$750 over the Larchmont 28-mile course; wind, s. by w., brisk.—In the Knickerbocker Yacht Club spring regatta there were 27 starters; course, 10 miles; winners, Mascotte, Yolande, Nanita, Rosetta A., Edna and Maggie.—The Atlantic, Yonkers, Corinthian, Sing Sing and Brooklyn Yacht Clubs and the Newburg Canoe Association held spring opening receptions.—In the Yorkville Yacht Club spring regatta—Course 1, Oak Point to Gangway Buoy and return; Course 2, Oak Point to Stepping-stones and return—the winners were Emma and Alice, Forsyth, Florence Tate, Jessie, Bessie R., Mollie McCarthy, Harry C.—The winners of the Yonkers Canoe Club's races were: $\frac{3}{4}$ -mile, padding, Everett Masten's Alpha; $\frac{3}{4}$ -mile, tandem, L. BASEBALL.

The year of 1889 was a red letter one in the history of baseball, and 1890 promises to be just as eventful. Whether recent developments will enhance the popularity of the sport, time alone can tell. In 1889 more games were played than ever before, and the general attendance at the games was larger. All the professional clubs made money, except those which were handicapped by extravagant management.

The year brought out many remarkable features pertaining to the game, the most striking being the tour around the world under the management of A. G. Spalding, the millionaire ex-ball player. Games were played in places where even the name of America is seldom heard, one match being played in Egypt before one of the great pyramids of Gizeh.

The year also saw the first rebellion in the history of the game, the players of the National League, under an organization called the Brotherhood, seceding from their old managers and forming an association of their own called the Players' League. This movement, at first confined to the players of the League, spread and afterward included many of the players of the American Association and the minor leagues. John M. Ward, Frederick Pfeffer, Edward Andrews, Edward Hanlon, and Daniel Brouthers were the players' leaders in the revolt. The club owners combined to block the movement and took the matter into the courts. The players signed a stringent oath to stick by each other, but desertions from their ranks were numerous, nevertheless.

The amateur clubs prospered during the year, and there were more regularly organized nines than in any previous year. Only three clubs battled for the intercollegiate pennant, and Yale, by defeating Harvard on June 25 by 8 to 4, won the trophy. On June 29 Williams College defeated Amherst by 8 to 5, and won the championship of the American College Association. The Staten Island cricket team won the American League championship of New-York with seven victories and three defeats, after a close fight with the Staten Island Athletic and Crescent Athletic teams.

The "Giants," of New-York, again won the League pennant, repeating their record of 1888. The Boston team was the only real competitor the "Giants" had and finished second, with Chicago third, Philadelphia fourth, Pittsburg fifth, Cleveland sixth, Indianapolis seventh, and Washington eighth. The last championship games were played on October 5, and the race between New-York and Boston was so close that the pennant question was in doubt until the last game had been played.

On October 9 the National League of Great Britain was formed at a meeting held in London.

The American Association's championship season closed on October 15, the Brooklyn team winning the pennant. The St. Louis finished second, Athletic third, Cincinnati fourth, Baltimore fifth, Columbus sixth, Kansas City seventh and Louisville eighth.

The Atlantic Association held its annual meeting on October 16. The officers

of president, secretary, and treasurer were combined and J. M. Braden was chosen to fill the new office.—New-York City.

From October 18 to 29, inclusive, the New-York and Brooklyn clubs, winners respectively of the pennants of the National League and American Association, contended for the world's championship, the series being the best six in eleven games, played alternately in New-York City and Brooklyn. The New-Yorks won, being victorious in the second, fifth, sixth, seventh, eighth, and ninth games by the respective scores of 6 to 2, 11 to 3, 2 to 1, 11 to 7, 16 to 7, and 3 to 2. The Brooklyn won the first, third and fourth games by the respective scores of 12 to 10, 8 to 7, and 10 to 7. Eleven innings were played in one game and nine innings in each of five games. The three games won by the Brooklyn were limited by darkness, twice to eight innings and once to six innings.

The season of the Central Interstate League closed on September 27, with the Quincy team winners of the pennant.

The championship season of the International Association closed on September 28, with the Detroit team winner of the pennant, Syracuse second, Rochester third, Toledo fourth, Toronto fifth, London sixth, Buffalo seventh, and Hamilton eighth.

The Atlantic Association's first season closed on September 29, the Worcester team winning the championship; Newark being second, Hartford third, New-Haven fourth, and Lowell fifth. The Jersey City, Wilkesbarre and Easton teams disbanded before the season closed.

The Western Association's season closed on September 30, the Omaha team winning the pennant, with the St. Paul second, Minneapolis third, Sioux City fourth, Milwaukee fifth, Denver sixth, St. Joseph seventh and Des Moines eighth.

The Michigan State League closed its season on October 4, with the Jackson and Saginaw clubs claiming the championship, which was subsequently awarded to the former at the annual meeting.

The Harrisburg (Penn.) Club won the Middle States League championship, the season closing on September 10.

The Canton Club won the Tri-State League pennant, the season closing on September 15.

The Central Interstate League came to a disastrous end on September 16. The Davenport Club had such a lead in the race that the remaining clubs withdrew from the contest.

The Jackson Club won the trophy of the Michigan State League, being awarded the pennant at a meeting held on October 31.

On January 4 the Texas League was formed; on January 5, the Middle States League; on January 12, the Central Interstate League.

On January 21 the Southern League was reorganized.

Clubs of Ohio, Indiana and West Virginia met on January 29 and organized the Tri-State League. The Atlantic Association was organized on the same day at a meeting at Jersey City. Lowell, Worcester, Jersey City and Newark were represented. The New-Haven, Wilkesbarre, Hartford and Easton teams were afterward admitted.

The American College Association met at Boston on February 8, and the pennant for 1888 was awarded to the Williams College team.

The first great game of the year was played on February 10. Twelve innings were played at Marysville, Cal., between the local club and the Alta team, of Sacramento. No runs were scored until the twelfth inning, when the Atlas scored 3.

On March 5 the National League met at Washington, D. C., and the American Association met at Columbus, Ohio, on the same day. Each adopted its schedule. Two days later the New-York State League was organized.

On March 16, at Pittsburg, Umpire Decker brought suit against the National League, but lost his case.

On March 19 the International Association met at Rochester, the Atlantic Association at Jersey City, the Middle States League at Philadelphia, and the Southern League at Chattanooga.

The Chicago and All-America combination, under the direction of A. G. Spalding, arrived in New-York on April 6, having completed a trip to Australia and through Europe that was virtually commenced November 18, 1888, when they sailed from San Francisco in the steamship Alameda. On April 8 the teams were tendered a banquet at Delmonico's; on the 11th another banquet at Philadelphia, and still another at Chicago on April 19.

On April 20 the teams played in Chicago the fifty-third and last game of the series, commenced October 20, 1888, in the same city. The All-Americans were credited with twenty-eight victories, and the Chicago with twenty-two victories, while three were drawn with the score a tie, in the games played in this country, Australia and Europe.

On May 2 Knott shut out the Philadelphia Giants without a safe hit in the game at Reading. On May 3, the Rochester team made the only run in an eleven-inning game at Rochester. Murphy made three home run hits in game at New-Haven.

On May 19, at the annual meeting of the Ballplayers' Brotherhood, John M. Ward was re-elected president and T. J. Keefe secretary and treasurer.

Fourteen innings were played by the Young America and Norristown teams, the former winning, on May 23, by 6 to 5, at Norristown, Penn.

The twelve games played morning and afternoon on Decoration Day (May 30), by the clubs of the American Association and National League, attracted an attendance of 83,578.

The Pittsburg club made the only and winning run in a game with the Indianapolis team at Pittsburg on June 3.

Forty-one safe hits, with a total of sixty-six bases, were made in the Wilkesbarre-Hartford game on June 6. The Wilkesbarre team scored sixteen runs in the ninth inning.

On June 13 the Louisville players struck at Baltimore and refused to play. On the following day the American Association held a special meeting in New-York City and ordered the Louisville club to fulfil its obligations to its players under penalty of expulsion.

In a game at Sunbright, Tenn., between

amateur clubs, Davidson Hall, one of the players, was fatally stabbed by Walter R. Staples, who was umpiring.

The clubs of the American Association and National League each played two games on July 4, the total attendance at the sixteen championship games being estimated at 97,344.

On July 8 the new grounds of the New-York club, at One-hundred-and-fifty-fifth-st. and Eighth-ave., this city, were formally opened, the New-York team then defeating the Pittsburgs by a score of 7 to 5.

On July 20 the Staten Island Athletic and Cricket clubs played fifteen innings without a run being scored. Bates and Tyng were the pitchers.

The twelve games played in the morning and afternoon of Labor Day (September 2) by the National League and American Association clubs attracted an estimated attendance of 75,362.

On September 7 Captain Comiskey, claiming it was too dark to play, took the St. Louis team off the field in the ninth inning of the game with the Brooklyn at Washington Park, Brooklyn, the score being 4 to 2 in his favor. Umpire Goldsmith declared the game forfeited in favor of the Brooklyn club. On September 23 at a special meeting of the American Association, Umpire Goldsmith was dismissed and his decision in the St. Louis-Brooklyn game was reversed, the game being awarded to the St. Louis club by the score of the eighth inning, 4 to 2. Guy Hecker was appointed umpire in Goldsmith's place.

The National League held its annual meeting on November 13, 14 and 15. The membership was increased to ten clubs by the admission of the Brooklyn and Cincinnati clubs.

The annual meeting of the American Association was held on November 13, 14, 15 and 16. The Brooklyn, Cincinnati and Kansas City clubs withdrew, the last named to join the Western Association.

Ed. Crane is said to have thrown a ball 135yds. 1ft. 2in. on October 12, 1884, in Cincinnati, and 134yds. 5in. on October 19, 1884, in St. Louis. On January 5, 1889, he threw a cricket ball 128yds. 10 1/2 in. at Melbourne, Australia.

The largest number of innings played was 24, in the Harvard-Manchester match, at Boston, Mass., May 11, 1877.—The quickest played game, 47 minutes, was between the Dayton and Ironton clubs, at Dayton, on Sept. 19, 1884. The greatest distance at which a ball was thrown was 133yds. 7 1/2 in., by John Hatfield, at Brooklyn, on Oct. 15, 1872. The largest number of games played in one season was 188, by the Detroit club, between March 11 and Oct. 26, inclusive, 1887. The largest number of games credited to one player was 184, to S. L. Thompson, of the Detroit club, in 1887.

CRICKET.

The cricket season of 1889 was altogether the most prosperous ever known in the country. Although no team from England, Ireland or Australia visited these shores during the year, the home cricketers have had an exceptionally busy season. Several new clubs have been formed, and in Philadelphia there are now fifty cricket organizations. Efforts are being made to establish a Cricketers' Association, which shall be the ruling power in all matters appertaining to the game, and by which all disputes between contending clubs shall be settled.

The Staten Island Cricket Club did little work during the year, playing only 12 games, of which they won 7 and lost 3, while the remaining 2 were drawn. The average number of games played in and about New-York numbered 20, while that for clubs in other cities of the Union was 15. The Halifax and Club Record cups, which are competed for by the leading clubs of the country, were won by the Germantown Club, which defeated the Belmont, Merion, Young America and Philadelphia clubs. In the contest for the Halifax Cup the Germantown Club scored 1,147 runs for a loss of 71 wickets. In 1889 the points won and lost by each club were as follows:

W'n.L'st.		W'n.L'st.	
Germantown 50	9	Philadelphia 19	36
Belmont.... 43	27	Tioga..... 15	51
Merion..... 34	25		
YoungAmer 25	38	Total.....	186 186

None of the clubs finished its series,

and the Germantown Club retained the trophy.

During their visit to England, Ireland and Scotland the Gentlemen of Philadelphia played twelve matches. Out of these they won four and lost three, while the remainder were drawn. The record was as follows:

	Wickets	Runs.	lost.	Average
Gentlemen of Phila.	4,360	173	25.2	
Opponents	4,614	190	24.28

THE NEW NAVY.

The new navy of the United States received its first start in 1881, when, under the direction of Secretary W. H. Hunt, the first Advisory Board was appointed to report upon the pressing need of appropriate vessels to replace the old wooden vessels, many of which were unfit for repair. The Advisory Board, consisting of fifteen naval officers, and with Rear-Admiral John Rodgers as president, met early in June, and in November it made a report recommending the building of thirty-eight unarmored steel cruising vessels. Of these, two were to be of 5,873 tons displacement, six of 4,560 tons, ten of 3,013 tons, and twenty of 793 tons. But it was not until March, 3, 1883, that Congress made an appropriation to build four vessels "as recommended by the Naval Advisory Board in its report, December 20, 1882." A contract was made with John Roach & Sons to build these four vessels—the Chicago, 4,500 tons; the Atlanta and Boston, 3,189 tons each, and the Dolphin, 1,485 tons. In the building of these ves-

sels there was an impetus given to the iron and steel industries throughout the land which promises steady employment to hundreds of thousands of men. The gun trials, the speed, and all that pertains to the construction and behavior of these four modern ships proves the wisdom of maintaining the Navy in a state of usefulness and dignity. The Dolphin recently completed a most successful cruise around the world, and is now on duty in the West Indies. The Boston and Atlanta have had successful cruises, and, with the Chicago, are now in Europe, with the Squadron of Evolution. The next legislation providing for the construction of modern steel war vessels was on March 3, 1885, the last day of President Arthur's (Republican) Administration. Other appropriations have since been made, and when the vessels provided for have been finished, the Navy will have twenty-nine new steel unarmored and armored cruising vessels.

The following is a list of the vessels of the new Navy, their type, displacement, armament, horse-power, cost, etc.:

ARMS AND LEGS.

WITH RUBBER HANDS AND FEET.

The rubber hand and foot gives the most natural appearance, the greatest durability and comfort of all artificial limbs.

The engraving is from an instantaneous photograph of a man ascending a ladder. He has a pair of Marks' legs, substituting his natural ones, which were crushed by a railroad accident and subsequently amputated. With his rubber feet he is able to ascend a ladder, walk and mingle with persons without betraying his loss.

With complicated ankle joints an undertaking of this kind would be at his peril, but with the rubber feet he can venture upon all sorts of operations with safety.

A treatise of 400 pages, with 190 illustrations and 1,000 testimonials, sent free; also a copyright formula by which limbs can be made, and sent to all parts of the world with GUARANTEED SUCCESS without requiring the presence of the wearer. A. A. MARKS, 701 Broadway, New-York City.

SPELLING WORDS USED IN CORRESPONDENCE.

And their Prefixes and Suffixes, for Bankers, Merchants, Lawyers, Authors, Typewriters, etc.
PREFACE.

The great Dictionaries leave little to be desired, when it is convenient to employ them. The busy man, though, does not care to spend the time turning over their pages when he simply desires to know the spelling of a word. He simply wants to know how a word is spelled, and to ascertain it in as short a time as possible.

This little work answers this purpose more thoroughly than any of the Dictionaries.

AN APPENDIX contains words in groups, that are pronounced somewhat alike, but have different meanings and spellings. To these words a short definition has been given. A sample page will be forwarded upon application.

"NOTHING" LIKE "SUCCESS."

THE MUTUAL RESERVE FUND LIFE ASSOCIATION, Home Office, Potter Building, 38 Park Row, New-York, continues to furnish **LIFE INSURANCE** at about **ONE HALF** the usual rates charged by the old system companies.

It is able to do so because it collects each year in addition to a small emergency fund only the amount required to pay the death claims and legitimate expenses, and the History of Life Insurance shows that **ONE HALF** the usual rates will cover these items.

It has already paid to the **WIDOWS** and **ORPHANS** of deceased members more than **SEVEN MILLION DOLLARS** in cash.

It has already saved to its living members, by reducing the **RATES** of Life Insurance; said saving exceeds **TWENTY MILLION DOLLARS** in cash.

In addition to reducing the rates to less than one-half the amount charged by the Old System Companies, its cash surplus accumulations equal a dividend of more than thirty per cent upon the total mortuary premiums paid by members of five years' standing.

Which thirty per cent dividend is payable at the expiration of fifteen years from date of membership.

It has a **CASH SURPLUS RESERVE EMERGENCY FUND** exceeding **TWO MILLION TWO HUNDRED THOUSAND DOLLARS**, with assets exceeding **THREE MILLION DOLLARS**.

It has more than fifty-five thousand members: more than fifty-five thousand homes are provided for through its policies of insurance. It has more than **ONE HUNDRED** and **SEVENTY-FIVE MILLION DOLLARS** of insurance in force.

It is transacting business in all of the healthy sections of our country, as well as in England, Ireland, Scotland, France, Belgium and Sweden.

The Mutual Reserve Fund Life Association **ADVANCES** money to the **WIDOWS** and **ORPHANS** within twenty-four (24) hours after the death of its members.

It is the greatest financial success ever known in the history of Life Insurance. Write for full particulars.
